

# County of Ector, TX, Procurement Team Speeds Up Solicitation Development with OpenGov

*The adoption will help refine processes, potentially slashing the time to create solicitations and providing a clear window into the bid evaluation process.*

TEXAS, UNITED STATES, September 29, 2023 /EINPresswire.com/ -- Looking to

reduce the time needed for solicitation development and improve communication in its procurement processes, the County of Ector, TX, decided it was time for a change. It found the solution in [OpenGov](#), the leader in cloud software for our nation's local governments.

Containing the City of Odessa, which is also the county seat, the County of Ector, TX, is known for its dedication to streamlined operations and top-tier service for residents. In its efforts to further enhance services, the County sought a software solution that would offer efficiency, streamlined communication, and improved vendor outreach for procurement. Among the options, [OpenGov Procurement](#) emerged as the frontrunner for its unmatched customer support and commitment to delivering the highest quality features in a user-friendly platform.

By integrating OpenGov Procurement, the County of Ector will receive tools to help transform its procurement processes. The adoption will help refine the County's methods, potentially slashing the time to create solicitations and providing a clear window into the bid evaluation process. Additionally, the intuitive vendor portal will help bolster vendor participation, potentially leading to more competitive pricing.

The County of Ector, TX joins thousands of public sector organizations leveraging OpenGov to revolutionize work processes with cloud-based software designed specifically for the needs of government.

## About OpenGov

OpenGov is the leader in modern cloud software for cities, counties, state agencies, school districts, and special districts. With a mission to power more effective and accountable government, OpenGov serves thousands of public sector leaders and their organizations. We are built exclusively for the unique budgeting and planning, accounting, permitting and licensing,

procurement, and asset management needs of the public sector. The OpenGov Cloud makes organizations more collaborative and efficient, enabling best-in-class communication with stakeholders and your community.
