Homes, businesses including restaurants and entertainment centers, and the food and beverage industry all contribute significantly to the demand for floor cleaning equipment. As the healthcare industry grows in order to avoid infections, so does the need to maintain floors clean. Consequently, it is projected that demand for floor cleaning devices will rise globally. Furthermore, it is projected that during the forecast period, stringent government regulations requiring all businesses to maintain the greatest level of cleanliness drives the global floor cleaning machines market growth.

Increase in number of small-scale industries in emerging markets and government initiatives to promote them, such as Pradhan Mantri Mudra Yojna and Credit Guarantee Fund Trust for Small

Business (CGTMSE) is driving the growth for small scale industry, which in turn increasing the demand for floor cleaning machine for industrial cleaning. Moreover, as floor cleaning machines are widely used in factories of manufacturing companies, increase in manufacturing companies is expected to create opportunities for expansion of the floor cleaning machine market.
