Trending Elementary And Secondary Schools Market Trend

A noteworthy trend in the elementary and secondary schools market is the adoption of the flipped classroom model of teaching. This model enhances students' learning experiences by

creating an interactive atmosphere in classrooms. In a flipped classroom, students review lecture materials or video lectures as homework prior to attending class. During in-class time, interactive discussions and collaborative work take place under the guidance of the teacher. The flipped classroom approach offers students flexibility in consuming lecture material at their own pace and encourages them to come prepared with specific questions for class discussions.
