The global IQF vegetables market growth is expected to be driven by surge in demand for IQF vegetable from the food service industry, owing to the various benefits offered by IQF vegetable."

uses the fluidization approach.

Allied Market Research

This results in freezing vegetable for 10–12 minutes and keeps the vegetable fresh for longer period of time. From the past few years, rise has been witnessed in the demand for IQF vegetable from the residential sectors. This is attributable to their availability throughout the year, and they minimize preparation time.

IQF vegetable requires adequate refrigeration and storage facilities. Rapidly increasing number of retail stores, including supermarkets and hypermarkets majorly in developed economies like Europe and North America has

enabled easier availability of IQF vegetable, as these stores are equipped with deep refrigeration and improved storage facilities. Supermarkets, hypermarkets, and other high-end retail stores serve as a better distribution point for IQF vegetable. >>>Make an Enquiry @ https://www.alliedmarketresearch.com/purchase-enquiry/8378
