Unveiling the new photo collection
DAMN ALIENS

Join Damn Futurism

The Experience Futuristic Artistry:

The Italian futurism's visionary ideals will merge with digital art. The event promises to be a sensory feast with a spellbinding collection.

"DAMN Italian Futurism" - A Contemporary Ode to Dynamism and Modernism:

At its core, this event pays homage to the iconic 1920s movement that celebrated a lifestyle characterized by dynamism, speed, and modernism. It's a vibrant manifestation of the pulse of the industrial age and the ever-shifting essence of art in motion.

E-uphoria's NFT Collections:

Alessia Moccia, awarded photographer at IPA 2022 and 2023, is an NFT producer who aims to subvert traditional street photography art into a surreal new genre with a collection inspired by dynamism and alienation through the art of NFTs.

Pamela Lubell's Visionary Helmets:

Renowned artist Pamela Lubell presents her helmets that symbolize the essence of speed and mental protection. "These helmets serve as a shield against the whirlwind pace of urban life, a powerful statement on the need to protect our minds while navigating the chaos of the modern world," she says.

Motomichi Nakamura's Piercing Red Eyes:

Motomichi Nakamura's art seems the sentinel of a city that never sleeps, with his piercing red eyes as a symbol of vigilance and transformation.

Francesca Ferretti's Art Graphic Design:

Francesca Ferretti's artistic influence permeates every aspect of the event's graphic design, ensuring that every visual element is a work of art.

Unforgettable Vibes:

A night that blends digital art's mystique with live music's futuristic energy with a cutting-edge DJ set.

Interstellar Gala:

Embrace the "DAMN FUTURISM" theme as a homage to futuristic aesthetics, where art and technology meet on the runway of imagination. Savor space-inspired drinks will welcome the guests.

Alessia Moccia invites the attendants to join this cosmic art extravaganza, where DAMN FUTURISM becomes a reality and art's past, present, and future collide. She thinks that creativity knows no bounds and the future is now.
