Top Impacting Factors : Market Scenario Analysis, Trends, Drivers and Impact Analysis : Surge in application in the personal care and salon industry, the professional trimmers regaining importance not just at the commercial level but also for household application. The ease in functionality and multi-utility features of a professional trimmer makes it a perfect choice for the customers. Growth in competition among the leading market players in product quality standards, brand recognition and durability of the product fuel innovations and improvisations in product development and other marketing strategies. Increase in awareness among the consumers about grooming products drives the growth of the [global professional trimmers market](#).

The global professional trimmers market trends are as follows :

New product launches to flourish the market :

New products with improved capabilities have been launched by the leading market players to cater to the growing complex needs of the consumer base. Trimmers were primarily used for trimming beard and had a reach till the men's segment but with growing diversification its application broadened to men, women, household and commercial segment.

Now trimmers are used for trimming beard, shortening, and styling hair, and removing body hair. The market diversified in the men and women segment providing opportunities to the

leading market players for expansion. These are used by salons to provide services to their customers or the individuals prefer buying them for personal use. The increase in awareness regarding personal care and grooming is developing sufficient demand for the professional trimmers market and is expected to fuel the market growth.

Availability of professional trimmers at online stores :

The online stores or the E-commerce platforms play a vital role in modern era consumer shopping. The rise in use of interest and increase in inclination of consumers on the online mode of shopping has made it an integral part of the distribution system for the manufacturers as well.

The wide range of available options at the online stores, offering diverse products in the same product line, from different manufactures, with distinct features and comparable price boost the sales for the firm through online channels. For this the leading market players adopt various marketing strategies such as running promotional campaigns on social media, offering occasional discounts and offers.

COVID-19 Scenario Analysis :

Production shutdown scenario :

The manufacturing of professional trimmer could not be executed owing to the implications of COVID-19. The industry operations have been temporarily shut down resulting to decline in stock produced in the global market.

Disruptions in supply chain :

The disruptions in supply chains hampered the production and distribution of the product. The lack of transportation hindered the cross-country exchange of raw materials and also the supply of finished goods. This declined the revenue for the industry.
