Solutions Ltd., a pioneer in AI-powered solutions for vulnerability management, compliance and IT Operations Management (ITOM), is excited to reveal its latest innovations on 10-12 October 2023 with its partner [Prianto](#) at it-sa Expo and Congress in Nuremberg, Germany. The event is Europe's largest IT security exhibition.

See you at booth 7-627!

As a leading provider of Cloud-Native Application Protection Platform (CNAPP) capabilities that span from on-premises and operating systems to cloud and containers, Runecast helps customers across heavily regulated industries by automating risk-based vulnerability management, continuous compliance auditing for industry regulations and vendor best practices, container security and more efficient ITOM.

“

Run it... you will be amazed by the findings. We always think that a lot of apps are secure by nature and by how they've been designed, but after deploying Runecast you really understand the gaps.”

Industry experts have called Runecast a ‘must-have’ solution for VMware environments, and analysts have referred to it as a ‘Swiss Army Knife for VMware Admins’.

"We are thrilled to introduce our latest enablers for the vCommunity at it-sa in Nuremberg," said Stan Markov,

Runecast CEO and Co-Founder, and – as VCDX #74 – one of only 300 VMware Certified Design Experts globally. "With our industry-first agentless workload scanning for VMware [1] and automated DORA compliance audits, we are taking a big step towards empowering organizations to keep their workloads secure and compliant in the most efficient way."

Customer case studies verify 75-90% typical time savings in the areas of troubleshooting, upgrade planning and compliance readiness, and customer reviews regularly recognize Runecast as a 'High Performer' in G2 Grid® Reports for various categories that include Security Risk Analysis, Cloud Workload Protection Platforms (CWPP), Vulnerability Scanner, Cloud Compliance and Cloud Security.

□ German Customers Know Best □
