DALLAS, TEXAS, UNITED STATES, October 3, 2023 /EINPresswire.com/ -- Renowned rhinoplasty specialist, Dr. Rod J. Rohrich has been ranked as the [best rhinoplasty surgeon in the United States](#) for the third consecutive year in Newsweek's recently published peer reviewed list of top performing plastic surgeons.

Partnering with data analytics provider, Statista Inc., Newsweek has published a ranked list of the best plastic surgeons in the United States for each of the five most common cosmetic procedures: breast augmentation, liposuction, facelifts, eye lifts, and rhinoplasty.

These ranked lists were curated as the result of an independent, national survey conducted during March and April of 2023, which queried over 2,000 industry experts ranging from physicians, surgeons, plastic surgery clinic managers, and health care professionals working in plastic surgery. Based on the results of this survey, a score was calculated for each surgeon based on the number of recommendations, a quality assessment, and relevant certifications and background of the candidates.

“

Rhinoplasty truly epitomizes plastic surgery as a whole because it is a surgery of such great finesse and takes years to master.”
