“

The Business Research Company's global market reports are now updated with the latest market sizing information for the year 2023 and forecasted to 2032”

The Business Research Company

The anthracite market growth is due to an increase in domestic fuel and power generation projects in rapidly developing countries such as china and India owing to the rise in population and infrastructure. Asia-Pacific region is expected to hold the largest anthracite market share. Major players in the market include Blaschak, Lehigh Natural Resources, Jeddo, BHP Billiton, and Reading Anthracite Company.

Trending Anthracite Market Trend

Anthracite mining companies are using RFID technology to monitor and control the level of methane in mines which can cause explosions. Every employee is outfitted with an active RFID Badge that continuously communicates their location to the RFID readers installed across the site. This information is relayed to the database, allowing to track employees' location and their status by their badge ID. These companies are also using automated temporary roof support (ATRS) and mobile roof support (MRS) solutions to prevent rockfalls caused by the bolting of
