

# Versasec and Swissbit Announce Technology Partnership, Combining Forces for Most Flexible Hardware Authentication

STOCKHOLM, SWEDEN, October 5, 2023 /EINPresswire.com/ -- [Versasec](#), a prominent player within the domain of identity and access management solutions on a global scale, is delighted to announce its strategic collaboration with [Swissbit](#), the leading European manufacturer of storage, security, and embedded IoT solutions for demanding applications. This dynamic partnership unites Versasec's acclaimed credential management system with Swissbit's hardware-based authentication solutions, led by the security key iShield Key Pro.

Technology advancements pave the way for malicious threats against companies and organizations across the globe. Organizational leaders are prioritizing protection for their company's assets and identities. They are turning to identity and access management solutions as a prominent part of their IT strategy to strengthen their security.

The technology alliance between Versasec and Swissbit enables businesses to optimize their authentication procedures, lower operational expenses, and enhance security with authentication devices and an integrated management system. The joint solution provides organizations with a seamless solution to elevate their security, meet compliance and exceed customer expectations.

"Versasec is on a mission to [enable the adoption of FIDO](#) as a significant authentication method for enterprises globally," stated Joakim Thorén, CEO at Versasec. "Together with Swissbit, we are quickly moving towards this common goal."

The graphic features a circular portrait of Claus Gründel, General Manager of Embedded IoT Solutions at Swissbit. To his right is a quote from him. Below the portrait and quote are the logos for Swissbit and Versasec. At the bottom of the graphic, the title of the press release is repeated, followed by the Versasec logo and the word 'Versasec'.

**Claus Gründel**  
General Manager, Embedded IoT Solutions, Swissbit

"Phishing-resistant, passwordless user authentication is a vital need for businesses and organizations that are seeking to meet their Zero Trust requirements and extend their cybersecurity infrastructures. Therefore, we are very excited about the technology partnership with Versasec. As the leading provider of state-of-the-art, highly secure identity and access management products, Versasec and its award-winning software systems combine perfectly with Swissbit's FIDO-compatible security keys."

The advertisement features the Versasec logo at the top left, with a hexagonal graphic to its right. Below the logo is the text "FIDO Credential Management" and a paragraph describing the system's capabilities. The central part of the ad is a large graphic divided into three sections: "FIDO", "FIDO CREDENTIALS MANAGED BY VERSASEC", and "FIDO CREDENTIALS + PKI MANAGED BY VERSASEC". Each section lists various features and benefits. At the bottom, there are logos for several partner companies and a list of office locations.
