About Galleria on Third's Shadin Hossain

Shadin Hossain migrated from Bangladesh to New York City when he was 17 years old. He arrived without knowledge of the culture or the language and was thrilled to be employed in any job that would have him. After many years he landed a job that would soon become his career; he was hired by a small framing shop. Art has always been a lifetime hobby when he was in Bangladesh but working in NY left little time to work on his craft, but his enthusiasm for art was a determining factor in his success at the framing shop, and he truly excelled beyond expectations. Shadin followed his American dream and opened his own framing gallery and is celebrating 22 years in business.

NY Tough, original art work created by Shadin Hossain

After years of advising and framing other artist's work, Shadin has finally returned to his youthful passion and is creating his own original artwork. He has developed a process that transforms fine art prints into sophisticated three-dimensional designs that have been received by his

patrons with great enthusiasm. He continues to develop mixed-medium pieces that are eye-popping, unique, and whimsical that truly encapsulate his sense of charity and generosity.

“

I have been very fortunate to have found myself doing what I love in a city that I love. My customers have always supported us, and we are very excited to be a useful member of our new community.”
