

Morae and Zylpha Partner to Integrate Adobe Acrobat Signature with iManage Work for Asia-Pacific Legal Professionals

Enabling organisations to enhance their return on investment in existing systems by expediting signature and information governance processes for documents.

SYDNEY, NSW, AUSTRALIA, October 4, 2023 /EINPresswire.com/ -- Morae Global Corporation ("Morae"), the global leader in digital and business solutions for a constantly changing legal industry, and Zylpha, a leading provider of court document bundling software that integrates with the leading case and document management systems, today announced a new partnership to collaborate on the [integration of Adobe Acrobat Sign with iManage Work](#) for

Asia-Pacific law firms and corporate legal departments. The integration enables organisations to enhance their return on investment in both systems by expediting signature and information governance processes for documents.

“

The integration of Adobe Acrobat Sign with iManage is a simple and yet powerful solution to speed and enhance process consistency for today's busy lawyers and legal teams”

Chris Davis

Often iManage Work and Adobe Acrobat Sign are not integrated which can result in a greater number of steps required to get documents signed and archived. With the integration, legal professionals can more easily send out documents for signature without ever leaving the iManage Work environment. iManage automatically saves the completed documents back into the matter while also creating a clear audit trail of every key step in the process. This drives greater efficiency by eliminating multiple steps of going back and forth between systems and by tightening

adherence to information governance policies.

"Adobe Acrobat Sign has seen significant growth in the legal sector, especially as many organisations increasingly look to leverage their existing investments in the Adobe Creative Suite. Zylpha and Morae are helping legal professionals take this one step further by also leveraging their existing investments in iManage for improved information governance," said David Chapman, Head of Marketing at Zylpha.

The Zylpha logo consists of the word "zylpha" in a bold, blue, lowercase sans-serif font. The letters are closely spaced, and the overall style is modern and professional.

Zylpha Logo

"The integration of Adobe Acrobat Sign with iManage is a simple and yet powerful solution to speed and enhance process consistency for today's busy lawyers and legal teams," said Chris Davis, Managing Director, Morae. "Morae's partnership with Zylpha enables us to reduce the turnaround time and cycles typically associated with the signing of documents so that legal professionals can focus more of their time on higher value work for the business."

Solution benefits include:

- **Ease of Use for Document Signing:** No more manual back and forth between systems. Stay in iManage and leverage Adobe Acrobat Sign with just a simple right-click on the documents.
- **Automated Information Governance:** No more forgotten documents in Outlook inboxes. Ensure information governance with automated archiving, real-time tracking and updating within iManage.
- **Improve Process Consistency:** Leverage the power of e-signatures for contracts, onboarding forms, NDAs, and other documents in a consistent manner for all parties and across a wide range of device types, including mobile devices.
- **Seamless Systems Integration:** Expect a smooth, rapid transition for seamless integration between Adobe Acrobat Sign and iManage Work, including support at the ready from Morae and Zylpha. Easy to setup and configure with zero client install required.
