

47% of the Top 100 Websites Have Blocked ChatGPT Browse With Bing, According To A New Study By Originality.AI.

OpenAI has re-launched ChatGPT Browse with Bing. In Originality.AI's new Study, they looked at which websites ChatGPT Browse with Bing can and cannot browse.

COLLINGWOOD, ONTARIO, CANADA, October 4, 2023 /EINPresswire.com/ -- 47% of the Top 100 Websites have blocked ChatGPT Browse with Bing, according to a [new study by Originality.AI](#).

[Originality.AI](#), the most [accurate AI content detector in the world](#) ran a data analysis and found that:

1. The most popular websites that ChatGPT Browse with Bing CAN NOT browse include:

Facebook.com
Google.com
Instagram.com
Pinterest.com
Amazon.com
Linkedin.com
Twitter.com

2. The most popular websites that ChatGPT Browse with Bing CAN browse include:

YouTube
Wikipedia
TikTok

Reddit

There are 3 reasons ChatGPT can not access a website:

a) Websites Blocking ChatGPT Browse with Bing Using Robots.txt: On Aug 7 OpenAI provided documentation on how to block GPTBot. Since then 26% of the top 1000 websites have blocked GPTBot, among other AI bots.

b) Browsing Restriction Placed on ChatGPT by OpenAI: OpenAI has seemingly placed browsing restrictions on a large number of sites. ChatGPT communicates several different reasons for the self-imposed restriction.

c) Temporary Error Browsing Site: There seemed to be some sites that were inconsistently unable to be browsed by ChatGPT. This could very likely be the result of Browse with Bing being a new feature and kinks still needing to be worked out.
