ORMOND BEACH, FLORIDA, UNITED STATES, October 4, 2023 /EINPresswire.com/ -- Internationally known Jacksonville, FL, architect William Morgan was honored in 1990 with an Unbuilt Design award for a one-of-a-kind architectural gem in the heart of [Ormond Beach](#). This award recognizes outstanding examples of architectural design. After the home's completion in 1994, at 489 Ocean Shore Blvd, the [Ocean Oasis](#) continues to win numerous awards. To date, the Architectural community considers Ocean Oasis one of the world's finest examples of neo modern architecture.

The grand oceanfront estate sits on a historic section of A1A Scenic and Historic Coastal Byway, a central north-south Florida State Road that runs through most oceanfront towns on Florida's east coast. This portion of SR A1A that runs by 489 Ocean Shore Blvd is also part of The Ormond Scenic Loop and Trail, a Florida Scenic Highway. "The loop," as locals call it, traverses through some of the most beautiful and diverse natural scenery remaining in coastal central Florida.

This collaboration strongly emphasized clean lines and open spaces to showcase this unique blend of modern and postmodern architectural features while still using technology that advances with the moving times of the 21st century. This collaboration created a timeless masterpiece through a seamless blend of exotic woods, metal artifacts, natural stone, and Carera glass, a soaring 30ft wall of glass overlooking the ocean, and bright open living spaces filled with natural light, one of the largest residential pools of its time.
