

USD 4.52 Billion Electric Kick Scooter Market to Reach by 2028 | Top key players, Growth, Trends and Industry Report

PORTLAND, OREGAON, UNITED STATES, October 5, 2023 /EINPresswire.com/ -- Allied Market Research has published a report entitled "Electric Kick Scooter Market." The report states "Electric Kick Scooter Market by Battery Type (Sealed Lead Acid (SLA), Lithium Ion (Li-Ion), and Others) and Voltage (Less than 25V, 25V to 50V, and More than 50V): Global Opportunity Analysis and Industry Forecast, 2021-2028". As per the report, the global electric kick scooter market was valued at \$2.10 billion in 2020, and is projected to

Electric Kick Scooter Market Demands

reach \$4.52 billion by 2028, registering a CAGR of 12.2% from 2021 to 2028.

This comprehensive report delves into the detailed statistics of the market by examining key segments, dynamics, regional analysis, leading players, and their business strategies to grow potentially, as well as the analysis of Porter's five forces that help organizations overcome obstacles and identify new opportunities. The report includes both quantitative and qualitative analyses, offering valuable insights into various aspects of the market.

An electric kick-scooter, also known as an e-kick scooter or a motorized scooter, works by an electric motor that is driven by a rechargeable battery & does not exceed 500 watts1. It has a maximum speed of 24 km/h on a level surface1.

With the gradual rise in demand for eco-friendly modes of transportation, the popularity of electric kick scooters is increasing. The internet is flooded with numerous brands offering the best quality and most convenient electric scooters. These are a flexible, versatile, and trendy

mode of transport. The fact that these scooters are small in size help to tackle traffic congestion. These scooters also come at an affordable price so anyone can benefit from this means of transport.
