

Wine Guardian Announces New Luxury Wine Cabinet Configurations

NORTH SYRACUSE, NEW YORK, USA, October 16, 2023 /EINPresswire.com/ -- Wine Guardian, the leader in wine cooling technology, has launched several new shelving configurations for their line of [luxury wine cabinets](#).

The configurations were developed through interviews and discussions with actual wine collectors to determine optimal layouts depending upon use cases and preferences:

- Aficionado Style – Ideal for those looking for a blend of storage and display space, perfect for showcasing key bottles in a collection.
- Connoisseur Style – For those that want bulk storage but also like to show off their collection “label forward.”
- Enoteca Style – Tailored for those who wish to proudly display their wine collection. The Enoteca Style cabinet contains all label forward storage shelves, giving you your very own “wine library.”
- Ultimate Storage – Created for those who want a cabinet purely to optimize storage capacity.

All configurations are available for both their Multi- and Single-Zone wine cabinets. These luxury wine cabinets can be purchased directly on Wine Guardian’s [shop page](#). The cabinets can either be added directly to cart or configured to personal preferences.

For more information, [contact Wine Guardian](#).
