Ultipa Liquidity Risk Management - Comparison2

“

Ultipa has been named a top finalist in the Tech of the Future – AI and Data Category at the prestigious 2023 Banking Tech Awards.”

Editor from Fintech Futures

Ultipa's CEO, Ricky Sun, expressed their excitement about this achievement, stating, "Being recognized as a finalist in the Tech of the Future – AI and Data Category at the Banking Tech Awards is a remarkable milestone for Ultipa. It underscores our commitment to innovation and excellence in delivering solutions that empower the financial industry."

The COO of Ultipa, Monica Liu, added, "Our Real-time

Liquidity Risk Management, powered by Ultipa Graph, the fastest [graph database](#) in the market, is a game-changer for banks. Unlike other solutions that take more hours to compute critical indicators like the Liquidity Coverage Ratio, Ultipa provides this information in real-time. Additionally, our solution offers attribution analysis and multi-day comparison capabilities, allowing banks to invest their excess liquidity while ensuring compliance with international regulations like Basel III. The remarkable ROI of Ultipa Liquidity Risk Management, which has reached an astonishing 100x for one of our customers, speaks volumes about the value we bring

to the industry."

Ultipa's Liquidity Risk Management solution is revolutionizing how financial institutions manage their liquidity, enabling them to make informed decisions in real-time and optimize their operations efficiently. This recognition as a finalist in the Tech of the Future – AI and Data Category at the 2023 Banking Tech Awards further cements Ultipa's position as an industry leader and innovator.
