

Wondercide Launches Flying Insect Trap

New Product Uses Innovative Blu-V™ Light Technology, Zero Chemical Insecticides

AUSTIN, TEXAS, USA, October 10, 2023 /EINPresswire.com/

-- Buzzing, vibrating wings circling by are an indication of predatory insects identifying their next victim. Waking up with skin flaring, itching and spite caused by mosquitoes leaves people ready to take them on and fight. Then there are the fungus gnats, moths and fruit flies. Household plants can suffer, holes in clothes appear, fruit becomes mushy and yellow, and worse things can happen when these nuisance bugs invade the home.

“

Flying Insect Trap is part of the Wondercide promise to empower you to protect your pack. It joins our growing line of pet-safe pest protection that millions of families know and trust,”

shares President of Wondercide Brad Locke.

Wondercide’s new [Flying Insect Trap](#), which is pet and people friendly, knocks out bugs with zero chemical insecticides – no zaps, no odors, and no mess. Flying Insect Trap uses innovative Blu-V™ light technology that mimics the same light flying insects are instinctively drawn to in nature. The soft glow attracts and traps bugs on the sticky cartridge behind the cover. The refillable trap is lab proven to kill mosquitoes, gnats, moths and fruit flies.

Ideal for parents, pet parents, indoor gardeners, homeowners, renters, Flying Insect Trap protects any indoor space 24/7 like kitchens, bedrooms, closets, living

rooms and garages with a sleek, slim design that rotates up to 90° to fit any outlet. With low energy consumption, plug one in every room where flying insects are present, then let the trap take care of the issue.

“Flying Insect Trap is part of the Wondercide promise to empower you to protect your pack. It joins our growing line of pet-safe pest protection that millions of families know and trust,” shares President of Wondercide Brad Locke.

Flying Insect Trap launches first on Wondercide.com and [Amazon](#), rolling out to retailers throughout the US next year.
