

Policy implications for commercial fleet electrification - opportunities and strategies

Edison Energy webinar next Wednesday, October 18

IRVINE, CALIFORNIA, UNITED STATES, October 10, 2023 /EINPresswire.com/ -- A free webinar next Wednesday, Oct. 18, will explore upcoming regulations and policy trends shaping the future of electrifying commercial fleets.

Members of Edison Energy's Policy and Transportation Electrification teams will discuss how to prepare for the future regulations, the opportunities they present, and the role they play in a long-term transition strategy.

The on-the-record conversation with Q&A will engage the Edison Energy team and the audience with topics such as:

- Major policies in the U.S. relevant to EVs, including the Inflation Reduction Act, Advanced Clean Trucks, and California Advanced Clean Fleets
- The impact of these policies on the commercial vehicle market and fleets
- Overview of how funding opportunities can help fleets transition to EVs

Note: As a follow-up, the webinar recording will be sent to all registrants. We invite you to sign up even if you cannot attend the live session.

What: ["Navigating US EV Policy: Roundtable with Edison Energy"](#)

When: Wednesday, October 18, 2023, 12:00 - 1:00 pm EDT

To join: The event will be online and free registration is [here](#).

Speakers will include:

Matt Donath, Sr. Policy Analyst, Edison Energy

As a Senior Policy Analyst, Matt tracks relevant legislation and regulatory proceedings at the federal, state, and local level and evaluates the potential impact to clients' energy strategy and

sustainability goals. In his previous role as a Sustainability Program Coordinator for the City of Milwaukee, Matt led multiple energy efficiency programs and assisted with development of the city's climate plan.

Matt has over 5 years of experience in clean energy and climate policy and has obtained his master's degree in Public Administration from the University of Wisconsin-Milwaukee.

Kiwa Anisman, Policy Analyst, Edison Energy

As a Policy Analyst, Kiwa supports the Policy team in research, analysis, and strategy development from the lens of policy and regulation. From communicating the ways clients can take advantage of the Inflation Reduction Act to analyzing the different green pathways available at the utility scale, the Policy Team is crucial to meeting clients' diverse needs and delivering a holistic approach to meeting each clients' sustainability and decarbonization goals.

Iman Nordin, Sr. Analyst, Transportation Electrification

Iman's role centers around educating clients on the evolving landscape of electric vehicle (EV) policies, supporting electrification planning through the lens of incentives and regulations, and ensuring clients are well-positioned to benefit from said EV policies throughout deployment. Prior to Edison Energy, Iman helped organizations reduce their clean energy investment costs by monetizing environmental commodities such as renewable energy credits (RECs) and clean fuel credits.

And moderator:

Meghan Weinman, Managing Director, Transportation Electrification & DER Solutions, Edison Energy

Meghan's role centers around educating clients on the evolving landscape of electric vehicle (EV) policies, supporting electrification planning through the lens of incentives and regulations, and ensuring clients are well-positioned to benefit from said EV policies throughout deployment. Prior to Edison Energy, Meghan helped organizations reduce their clean energy investment costs by monetizing environmental commodities such as renewable energy credits (RECs) and clean fuel credits.
