# Phoenix Security Announces Data-Driven Cybersecurity Awareness Month Campaign

*Phoenix Security Announces Data-Driven Cybersecurity Awareness Month Campaign diving in Application Security Data, OWASP Top 10, CWE, CISA KEV data*

LONDON, UNITED KINGDOM, October 10, 2023 /EINPresswire.com/ -- Phoenix Security, a leading cybersecurity firm specializing in vulnerability management and application security, is thrilled to announce its Cybersecurity Awareness Month campaign for [Year]. This year, the company is taking a data-driven approach to demystify the complex world of cybersecurity.
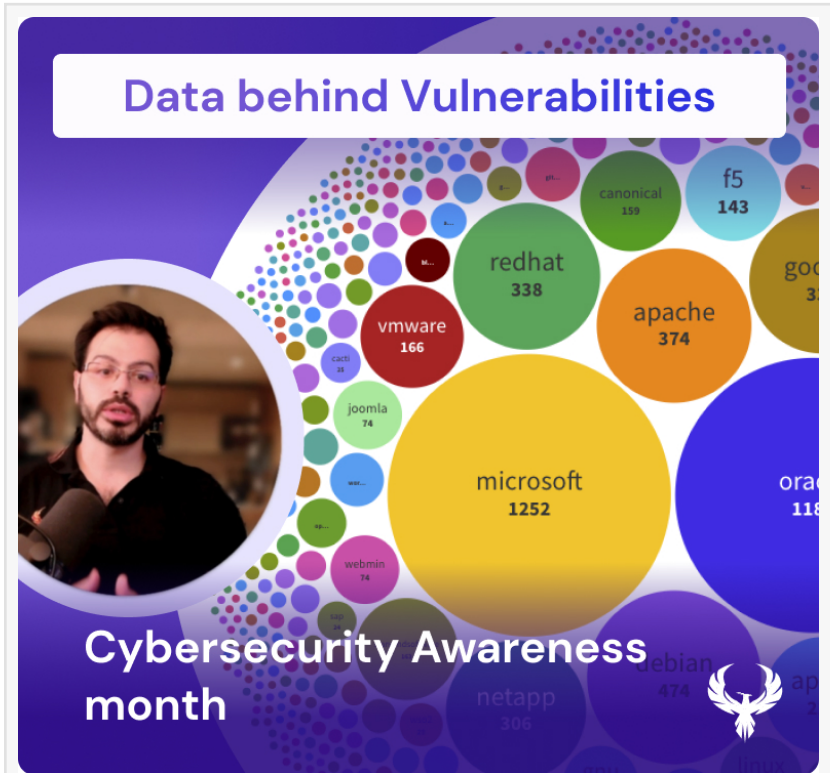

About the Campaign
The month-long campaign will feature weekly deep-dives into various datasets that are crucial to understanding today's cybersecurity landscape. Each week will focus on a different dataset, including:

Week 1: OWASP and OWASP Top 10
Week 2: Top Exploited Vulnerabilities
Week 3: Top Routinely Exploited Vulnerabilities and CISA KEV
Week 4: CWE and Trending in Application Security

Why It Matters
"In a world full of buzzwords and jargon, it's easy to get lost," says
