

# By 2021-2027, Demand for Pets Beds & innovative products will Surge to Boost the Pet Furniture Market at 6.5% CAGR

*North America was the highest revenue-generating market, due to rise in health care expenditure and well-established health care facilities in this region*

PORTLAND, 5933 NE WIN SIVERS DRIVE, #205, UNITED STATE, October 10, 2023 /EINPresswire.com/ --

According to a new report published by Allied Market Research titled, "[Pet Furniture Market](#) By Product Type, Pet Type, And Distribution Channel: Opportunities and Forecasts, 2021-2027," the global pet furniture market

size was valued at \$3,443.4 million in 2019, and is projected to reach \$5,139.4 million by 2027, growing at a CAGR of 6.5% from 2021 to 2027. In 2019, North America accounted for the largest share of around 38.6% due to rise in health hygiene expenditure of pet animals, and well-established health care facilities for pets in this region. . However, emerging countries in Asia, such as China and India, would witness increase in demand for pet furniture during the forecast period, owing to increase in awareness for comfort towards pets, rise in number of employed households, and growth in disposable income.

Growth in value sales for pet furniture industry is attributable to surge in demand for innovative products Beds & Sofa's category, which facilitate better results. Pet furniture is noticeably popular and expanding with significant pace in developed regions of the Americas and Europe, where manufacturers are coming up with new product innovations considering pets health and comfort to help pet owners adopt to a lifestyle with good convenience. Dogs and cats' segment are key to the performance of the market as compared to another segment. Advanced cost effective and customized furniture, rising concerns towards pet care, increase in health expenditure for animals as well as huge varieties in furniture for pet creates offers numerous pet furniture market opportunities.

global brands such as MidWest Homes for Pets, Nest Bedding and North American Pet Products are bringing new line of pet furniture related to pets and are providing different varieties of pet furniture for consumers. Innovative product offerings with latest features such as multi functions and customized by global brands for specific target group such as young population and working families is increasing regional demand for pet furniture.

Pet furniture have witnessed higher rate of penetration in North America and Europe. However, low availability has been observed for these products in some major parts of Asia-Pacific and LAMEA, which is attributable to low performing macro-economic factors such as internet penetration and aggressive marketing strategies by the manufacturers. Thus, lower penetration of such products limits the [pet furniture market growth](#).

For the purpose of pet furniture market analysis, the market is segmented into Houses, Beds & Sofas and Trees & Condos on the basis of product type. Among the three types, Houses accounted for a larger share of around 47.5% of the overall market in 2019. Also Houses segment is expected to capture a larger market share in 2027, owing to increase in demand for wide range of varieties. This pet furniture market segment is anticipated to witness faster growth in developed economies, and would account for 46.1% of the overall market by 2027.

The pet furniture market is segmented based on pet type, product type, and distribution channel. Depending on pet type, the market is divided into cat, dog and others. And depending on product type, the market is divided into Houses, Beds and sofas, Trees and condos. On the basis of distribution channel the market is segmented in specialty stores, supermarkets/hypermarkets, e-commerce, and others. On the basis of regions, the market is studied across North America, Europe, Asia-Pacific, and LAMEA. The Dog segment is expected to account for 46.1% of the overall market revenue by 2027.
