PORTLAND, OREGON, UNITED STATES, October 10, 2023 /EINPresswire.com/ -- Allied Market Research added new research on [Salmeterol Market Opportunity Analysis and Industry Forecast,2023-2032](#).

Which market perspectives are enlightened in the Retinoic Acid Market report?

Salmeterol (also known as SEREVENT) is an adrenergic receptor agonist, which is mostly prescribed for the prevention and maintenance of asthma and chronic obstructive pulmonary disease. The drug has a 12-hour duration of action and thus is more beneficial than short-acting beta2- agonists, such as albuterol, which has only 4- to 6-hour duration of action.

The increase in prevalence of people suffering from asthma and COPD, low cost of the drug, and its ability in maintaining the symptoms for long duration of time is expected to increase the demand of the drug. However, certain side-effects of the drug such as dizziness, sinus infection, migraine headaches, and breathing problems restraints the market growth.

The global salmeterol market is segmented based on application and region. Based on application, it is categorized into asthma, bronchospasm, and COPD. By region, the market is analyzed across North America, Europe, Asia-Pacific, and LAMEA.
