

Megh Computing Announces Partnership with TD SYNEX

Distribution of Megh's market ready Video Analytics Solution for Smart Places will scale offerings to partners

HILLSBORO, OR, USA, October 10, 2023 /EINPresswire.com/ -- Megh

Computing today announced a new partnership with TD SYNEX, a leading global distributor and solutions aggregator for the IT ecosystem. This partnership will enable Megh to scale the offering of its Video Analytics Solution (VAS) via resellers, system integrators and other partners to end users.

Megh Video Analytics Solution

□

"Megh is excited to be partnering with TD SYNEX to support customers' growing needs for deploying advanced AI based video analytics at the edge," says Prabhat K Gupta, CEO at Megh Computing. "TD SYNEX's global scale and reach, combined with their focus on solutions, makes them an ideal partner to expand our channel relationships."

“

Megh is excited to be partnering with TD SYNEX to support customers' growing needs for deploying advanced AI based video analytics at the edge."

*Prabhat K Gupta, CEO at
Megh Computing*

Megh Computing's VAS is an AI based, fully customizable, cross-platform solution that uses data from cameras and sensors to reduce security risks and improve operational efficiencies for Smart Buildings, Smart Warehouses, Smart Factories, Smart Retail, Smart Cities and other venues. VAS

is built on an Open Analytics platform which supports open customization, open choice and open integration as its key principles.

"TD SYNEX is committed to aggregating IT solutions that deliver business outcomes today and unlock growth for the future," said Lisa McGarvey, VP of Data, AI and IoT Solutions at TD SYNEX. "With Megh Computing added to our vast portfolio of vendor partners, we're able to enrich the breadth and depth of our AI offerings in the area of video analytics to enable our customers to create business value through real-time actionable insights."

Megh Computing's VAS is differentiated by its use of continuous training to eliminate false positives, support of contextual analytics to gain insights from existing cameras and sensors and leveraging of varied hardware acceleration to reduce costs. This partnership with TD SYNEX enables Megh's channel partners to avail themselves of the VAS reference solutions and the full range of scalable offerings.

About Megh Computing

Megh Computing is the leading provider of a real-time, AI-based streaming analytics platform using any hardware architecture for edge-to-cloud deployments.
