

Macomber Tree and Garden LLC Thrives with Tree Leads Today, Revolutionizing the Tree Care Industry

TOLLAND, CONNECTICUT, USA, October 11, 2023 /EINPresswire.com/ -- In the heart of Tolland County, Connecticut, a quiet revolution is taking place in the tree care and removal industry. Macomber Tree and Garden LLC, led by Owner Alex Macomber, is rapidly transforming and growing, thanks to its dynamic partnership with Tree Leads Today (TLT), a leading marketing company specializing in delivering exclusive leads to tree care and removal businesses.

Nestled amidst the picturesque landscapes of Tolland, Bolton, Coventry, and Vernon, Macomber Tree and Garden LLC is known for its commitment to quality, passion for tree care, and a unique approach to landscaping that supports biodiversity through native plant usage. However, it wasn't until Alex Macomber joined forces with TLT that his business truly blossomed.

TLT has played a pivotal role in elevating Macomber Tree and Garden LLC's presence in the community.

Macomber reflects on the transformation, stating, "Since partnering with TLT, we've experienced a steady workflow, gained brand recognition, and established a visible presence. People see our yard signs, and our lettered trucks, and they know we're in the area, trusted by others."

While Macomber's business may not have seen explosive growth in measurable percentages, the impact of TLT on his ability to maintain a consistent workload throughout the year cannot be overstated. He remarks, "Without TLT, I wouldn't have been able to work steadily throughout the year, especially in the competitive tree care industry."

Anticipating future growth, Macomber plans to double the size of his team starting next spring, a testament to the impact of exclusive leads generated by TLT. He explains, "We're not there yet, but we're looking forward to expanding our crew and serving even more clients in our community."

What sets Macomber Tree and Garden LLC apart from the competition is their deep-rooted local presence. As Macomber puts it, "We live in the area we advertise in. We're small enough to guarantee quality of work, and we're extremely passionate about the tree care industry. Our specialization in using native plants in landscaping to support biodiversity sets us apart in creating beautiful, sustainable landscapes."

Beyond tree care, the company excels in plant health care, pruning, and cabling – areas where they take pride in their expertise. Macomber adds, "In this industry, it's easy to remove large trees, but keeping valuable trees alive brings us great joy."

When it comes to exclusive leads versus non-exclusive leads, Macomber draws a sharp distinction. "This isn't just a lead service; it's a marketing and customer generation service. Other non-exclusive lead services simply send clicks your way, whereas TLT sends mailers and allows calls to come in organically. Customers are less confused and more interested in our services," he emphasizes.

Tree Leads Today came onto Macomber's radar during ArborExpo '22, marking the beginning of

a transformational journey for his business. With a history dating back to 2018, Macomber Tree and Garden LLC experienced a significant leap in growth in 2022, thanks to TLT.

Geo-targeting by TLT has streamlined Macomber's estimating process, allowing for efficient handling of 15-20 estimates a day within a single zip code. Proximity of jobs has also proven to be a game-changer, enabling competitive pricing and maximizing work output each day.

Macomber underscores the significance of phone calls over other forms of leads, stating, "Phone calls make it easy to track and streamline estimates. They ensure that we don't lose customers due to multiple forms being filed."

In conclusion, Alex Macomber praises the transformative power of Tree Leads Today, stating, "TLT has helped us flourish and grow in the tree care industry. We're excited about the future and grateful for the opportunities it has unlocked for Macomber Tree and Garden LLC."
