WINTER 2023

Astera ReportMiner: Your Unstructured Data Management Powerhouse

Astera ReportMiner, an automated PDF data extraction software, streamlines the challenging task of PDF scraping and report data extraction. Users can effortlessly extract data from PDF files utilizing an AI-powered, template-based data extraction process and export it to their preferred destination. ReportMiner automatically recognizes data patterns and creates the necessary data regions and fields for documents.

This award reinforces the growing recognition of Astera ReportMiner as the go-to solution for users seeking a robust tool to extract unstructured data and unlock actionable insights.

Why Does Astera ReportMiner Stand Out?

"

> With Astera, it only takes 2 minutes to digitize the PO, regardless of how long the PO is. That's where ReportMiner creates an impact on our processes."
>
> *Hayder Mir, Manager, Ex Custom Applications*

- End-to-End Automation: Users can generate data patterns on the fly, saving them significant time and effort. Built-in ETL and workflow automation functionality makes data processing effortless.

- Reusable Templates: Tailored templates designed to meet specific needs make extracting valuable information from diverse document layouts a seamless experience.

- Versatile Data Support: ReportMiner accommodates a wide range of unstructured data formats, ensuring compatibility with various data sources.

- Data Quality Rules: Users can customize rules to guarantee error-free, 100% accurate data extraction.

- Integration Flexibility: Seamlessly integrate with popular databases, file formats, enterprise applications, cloud solutions, and BI and analytics tools.

- 150+ Pre-Built Transformations: Accelerate data preparation tasks with over 150+ user-friendly pre-built transformations, easily applied through drag-and-drop functionality.

- Effortless Data Loading: Seamless movement of extracted data to any destination with extensive library of built-in connectors.

Data Governance: Robust data governance features to ensure data quality and security.

Ciena Corporation Transforms Operations with Astera ReportMiner

Ciena Corporation, after implementing Astera ReportMiner, reduced the time required to digitize purchase orders from 30 minutes to just 2 minutes, a remarkable 15X increase in data extraction speed. This transformation empowers account and order managers to meet customer demands with unprecedented efficiency.

Hayder Mir, Manager, Ex Custom Applications, emphasizes the impact: "With Astera, it only takes 2 minutes to digitize the PO, regardless of how long the PO is. That's where ReportMiner creates an impact on our processes."
