

Global Adenosine Triphosphate (ATP) Assays Market Forecast 2023-2032 – Market Size, Drivers, Trends, And Key Players

The Business Research Company's Adenosine Triphosphate (ATP) Assays Global Market Report 2023 – Market Size, Trends, And Forecast 2023-2027

LONDON, GREATER LONDON, UK, October 11, 2023 /EINPresswire.com/ -- The Business Research Company's "Adenosine Triphosphate (ATP) Assays Global Market Report 2023" provides

“

The global adenosine triphosphate (ATP) assays market size is expected to reach \$2.68 billion in 2027 at a CAGR of 10.9%.”

The Business Research Company

comprehensive insights into the adenosine triphosphate (ATP) assays market. According to TBRC's market forecast, the ATP assays market is expected to reach \$2.68 billion by 2027, with a Compound Annual Growth Rate (CAGR) of 10.9%.

The growth of the ATP assays market is attributed to the increasing frequency of cancer, chronic, and infectious diseases, with North America expected to hold the largest market share in the ATP assays industry. Major players in

the ATP assays market include Merck KGaA, Thermo Fisher Scientific Inc., PerkinElmer Inc., Lonza Group, Promega Corporation, and Agilent Technologies Inc.

Emerging Adenosine Triphosphate (ATP) Assays Market Trend

A notable trend in the ATP assays market is the development of novel assays, with major companies introducing innovative products such as SensiLux kits to sustain their market position.

[Adenosine Triphosphate \(ATP\) Assays Market Segments](#)

- By Type: Luminometric ATP (Adenosine Triphosphate) Assays, Enzymatic ATP (Adenosine Triphosphate) Assays, Bioluminescence Resonance Energy Transfer (BRET) ATP (Adenosine Triphosphate) Assays, Cell-Based ATP (Adenosine Triphosphate) Assays, Other Types
- By Component: Consumables And Accessories, Instruments

- By Application: Drug Discovery And Development, Clinical Diagnostics, Environmental Testing, Food Safety And Quality Testing, Other Applications
- By End User: Pharmaceutical And Biotechnology Companies, Food and Beverage Industry, Hospitals And Diagnostics Laboratories, Academic And Research Institutions
- By Geography: North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.

ATP assays are analytical procedures used to determine the concentrations of adenosine triphosphate (ATP) in biological materials. ATP is an energy-carrying molecule found in all living cells, extracting chemical energy from the breakdown of food molecules and using it to power various cellular processes. This assay is essential in research, diagnostics, and drug discovery as it monitors cellular energy state and function.

Adenosine Triphosphate (ATP) Assays Global Market Report 2023 from TBRC covers the following information:

- Market size data for the forecast period: Historical and Future
- Market analysis by region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
- Market analysis by countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

Trends, opportunities, strategies and so much more.

The Adenosine Triphosphate (ATP) Assays Global Market Report 2023 by The Business Research Company is the most comprehensive report that provides insights on market size, drivers and trends, major players, competitors' revenues, market positioning, and market growth across geographies. The adenosine triphosphate (ATP) assays market report helps you gain in-depth insights on opportunities and strategies. Companies can leverage the data in the report and tap into segments with the highest growth potential.
