

Busch Tree Service Takes Root as Industry Leader with TLT, Leading the Way in Tree Care and Power Outage Prevention

SALISBURY, MASSACHUSETTS, USA, October 11, 2023 /EINPresswire.com/ -- Busch Tree Service, a distinguished name in the tree care industry, has witnessed remarkable growth and success, thanks to its partnership with Tree Leads Today (TLT). Under the leadership of owner Dillon Busch, the company has been redefining excellence in the tree care business.

With a service area spanning multiple towns and counties across Massachusetts and Connecticut, Busch Tree Service has established itself as a go-to solution for tree care needs. "Soon after I started with TLT, they brought me so many leads, and with my reputation and the fact they give the leads to me exclusively, I landed a ton of jobs and had to ask my client manager to slow down the leads more than once," stated Dillon Busch, highlighting the impact of TLT on his business.

Having been in the tree care industry for nine years, Busch Tree Service differentiates itself by taking on complex and challenging jobs that others might shy away from. They are committed to quick response times and ensuring that people's tree-related issues are resolved in a promised timeline. "When people have downed trees, we will work as much extra as we have to so we get people's disaster resolved quickly. Having damage to your home is stressful and upsetting, and people really appreciate when we go the extra mile to get it taken care of for them quicker than a lot of other companies were willing to," adds Dillon.

In a recent development, Versource, a residential energy provider in Massachusetts, is investing \$41 million in tree maintenance to prevent the damage caused by fallen trees and limbs to power lines and other energy supply units. The company aims to address the issue of power outages caused by loose or dead limbs, which are a common problem in Massachusetts.

Dillon Busch, owner of Busch Tree Service, emphasizes the importance of preventive maintenance for Massachusetts' trees. He notes, "By identifying and addressing problems like weak or dead branches or trees, power outages can be lessened, which everyone would love to see happen."

As Busch Tree Service thrives and expands its reach, its partnership with Tree Leads Today continues to be a cornerstone of its success. The exclusive leads provided by TLT have played a crucial role in the company's growth, ensuring that potential customers are genuinely interested

in their services.
