

# EnSoftek and Zane Networks Contribute to Electronic Health Record Education at Howard University

---

*EnSoftek, through its DrCloudEHR solution, is collaborating with Zane Networks to support and contribute to EHR education at Howard University in Washington DC.*

BEAVERTON, OREGON, UNITED STATES, October 12, 2023 /EINPresswire.com/ -- EnSoftek is providing its [Electronic Health Record](#) (EHR) solution, DrCloudEHR, to simulate real-world patient scenarios for hands-on experience and training to Howard University. This cutting edge educational partnership will allow students access to innovative resources that enable them to thrive in an ever-evolving health tech space.

DrCloudEHR will be incorporated into the curriculum for approximately 75 students. This initiative places DrCloudEHR in a classroom environment, providing students with a hands-on experience of utilizing EHR systems for clinical workflows.

"Using DrCloudEHR in a classroom setting will provide a rich understanding of the digital tools available when providing care that saves lives," said Ramana Reddy, President & CEO, EnSoftek. "We are very proud of our partnership with Howard University as it opens new doors for students and professionals alike to become future innovators in the healthcare industry."

This collaboration represents a step forward in digital [healthcare education](#), positioning Howard University as a pioneer in utilizing innovative technologies to foster a new generation of healthcare professionals well-versed in the intricacies of modern healthcare systems.

For more information on this collaboration or to explore how DrCloudEHR is shaping the future of healthcare education, please contact:
