

Access Fixtures Announces the Launch of New HAMO LED Wall Pack Lights Featuring Selectable Wattage & Kelvin

HAMO LED up-light/downlight wall pack lights feature selectable kelvin and wattage. Die-cast aluminum housing, IP66 rated, CRI 80+, Choice of optics.

WORCESTER, MA, UNITED STATES, October 12, 2023 /EINPresswire.com/ -- Access Fixtures, a leader in commercial and industrial LED lighting, today announced the launch of [HAMO](#), our newest up-light/downlight [wall pack](#).

This versatile wall-mounted lighting solution has three built-in light modes, bringing life to any outdoor facade. It has an up light option, a down light option, each of which provide 30w of illumination, and a combined [up/down](#) light option, which provides a total of 60w of illumination. HAMO also features selectable Kelvin, allowing customers to choose their preferred Kelvin temperature between a warm white 3000K, a cool white 4000K, and a bright white 5000K. These fixtures also incorporate a 4-

power selectable wattage feature, allowing users to choose whether the light uses 100%, 75%, 50%, or 30% of its total wattage capability. Further lighting control is provided using the 0-10v dimmable driver, providing customers with further customization to ensure the HAMO's illumination best suits its environment. In addition to providing a customizable and versatile lighting experience, the HAMO is housed in an industrial robust powder-coated, die-cast aluminum alloy structure, enhancing durability and deterring vandalism.

"The HAMO's classic, attractive design marries functionality and style", said Access Fixtures CEO, Steven Rothschild. "It provides the perfect ambience for a variety of applications where it is essential that lighting complements architecture, such as the outdoor facades of hotels and municipal buildings."

HAMO Wall Pack with Selectable Wattage and Kelvin from Access Fixtures

The HAMO's classic,
attractive design marries
functionality and style"

The HAMO features EXTREME-LIFE L70 and is designed to function for up to 130,000 hours, ensuring years of reliable lighting performance. All HAMO's are IP66 rated and resistant to high-power water jets, providing the highest level of waterproof protection. In addition, Its unique PMMA lens is composed of a special type of safety glass, specifically designed to minimize accumulation of dirt and

water, further boosting the HAMO's longevity. HAMO's are covered under Access Fixtures' five-year warranty, provided they are operated in temperatures of between -22°F to 122°F only.

About Access Fixtures

Access Fixtures offers factory-direct commercial, industrial, hospitality, and sports lighting for less. Featuring luminaires with LED, PSMH, and fluorescent light sources and with custom manufacturing capabilities, Access Fixtures builds luminaires and poles to the performance specifications our clients require. Luminaire types include wall packs, area lights, bollard lights, garage lighters, vandal resistant lights, exit and emergency lights, high bays, and vapor-tight luminaires.
