

# Lighthouse Autism Center Announces Expansion of ABA Services in Nebraska

*Leading ABA Provider Set to Open Newest Location in Omaha, NE.*

OMAHA, NEBRASKA, UNITED STATES, October 17, 2023 /EINPresswire.com/ -- Lighthouse Autism Center, a leading provider of center-based, Applied Behavior Analysis ("ABA") therapy, today announced a new center location in Omaha, NE. Lighthouse Autism Center is currently the largest ABA provider in Indiana with a network of locations across Indiana, Michigan, Illinois and Iowa. Omaha Autism Center will be Lighthouse's first center to open in the state of Nebraska. The Omaha center is slated to open early 2024 and will provide autism services to 25 families and create over 35 new jobs in the area.

Autism spectrum disorder is one of the fastest-growing developmental disorders, with approximately 1 in 36 children in the U.S. being diagnosed with an autism spectrum disorder (ASD). As the need for services grows, Lighthouse Autism Center continues to pursue its mission of bringing the highest quality autism therapy to communities that need them. Lighthouse Autism Center services will bring ABA Therapy, Speech Therapy, Lighthouse Fusion® Therapy, Autism

Lighthouse Autism Center Anderson IN

Diagnostic Testing, Virtual Parent Training, Pre-academic Learning, and much more to the Omaha, Nebraska community!

Leila Allen, Chief Clinical & Compliance Officer of Lighthouse Autism Center noted, "LAC is very excited to bring our high-quality services to the state of Nebraska. We are incredibly passionate about what we do, supporting our communities, and helping our learners to achieve as much independence as possible. We look forward to working with families and others in Nebraska to bring awareness to autism and the supports that our families deserve to live their best lives."

#### About Lighthouse Autism Center

Lighthouse Autism Center offers autism therapy in a natural, play-based environment. Children are immersed in imaginary spaces where they can naturally explore their interests, engage in sensory experiences, and practice language. At the newest center in Omaha, Nebraska, children will have the opportunity to benefit from Lighthouse Fusion<sup>®</sup>, a unique clinical model that fuses the best practices of ABA and speech therapy into one innovative approach to autism treatment. Fusing speech into therapy programs gives the learners the language they need to have their own voice. Developed by a team of dually certified BCBA/SLP's, some of only a handful in the world, children can participate in co-treat sessions where three clinicians collaborate with one child to develop goals and deliver therapy. Through this model, children are making greater progress, faster, all while having fun.

Headquartered in Mishawaka, Indiana, Lighthouse was founded in 2012 by the parents of a child with autism. Over the past eleven years, Lighthouse has grown into a leading center-based ABA therapy provider for children on the autism spectrum, with a network of centers across Indiana, Michigan, Illinois, and Iowa. Lighthouse Autism Center believes that each child has unique and unlimited potential and is committed to bringing together compassionate care and clinical excellence to unlock that potential.
