AP Technology Joins the Jack Henry™ Vendor Integration Program

VIP enables AP Technology to integrate with the SilverLake System®

SAN DIEGO, CALIFORNIA, UNITED STATES, October 16, 2023 /EINPresswire.com/ -- AP Technology, provider of payment solutions to banks, financial institutions and businesses, today announced that it has joined the Jack Henry™ Vendor Integration Program (VIP). Participation in the program will provide AP Technology with access to Jack Henry's technical resources to enable the APSecure Remote Official Check (ROC) solution to integrate with the SilverLake System®. The Vendor Integration Program is designed to help ensure that Jack Henry's customers can easily deploy third-party products.

AP Technology: Creating payment solutions for banks and businesses of any size since 1989

AP Technology's APSecure ROC solution integrates with SilverLake System via jXchange™, a services-based programming interface that enables third-party vendors and banks to access the platform's core data and business rules. The integrity of data is maintained throughout any data exchange, because access to business rules and data is managed through a service layer which governs these interactions.

Through VIP membership, APSecure is seamlessly integrated with SilverLake System for funding services to provide automation and error reduction for banking clients' check processing workflows. VIP membership also provides the AP Technology Professional Services Team the

ability to deliver cutting-edge, client specific payment workflows in shortened timeframes.

"VIP membership enables AP Technology to automate many steps of the remote cashier check payment workflow," said Joe Briski, Chief Process and Innovation Officer for AP Technology. "This includes securing the banks' processes and allowing clients in most cases to print checks remotely in less than three minutes after making a request."

Jack Henry's VIP takes the customer out of the middle, providing vendors with direct access to Jack Henry's technical resources and test systems. VIP inclusion is not an endorsement of the vendor's product.
