JAPAN, October 13, 2023

/EINPresswire.com/ -- Nijigennomori Inc. (Headquarters: Awaji City, Hyogo Prefecture; President and Representative Director: Hiroshige Sadamatsu) opened its second seasonal collaboration event with the anime "Demon Slayer" at the Nijigen no Mori anime park located in Hyogo Prefectural Awaji Island Park. The event, beginning Friday, July 28th and continuing through Saturday, January 27th, 2024, promises to immerse visitors in the world of "Demon Slayer".

In April of last year, Nijigen no Mori unveiled its first seasonal events in collaboration with "Demon Slayer". The two events (immersive daytime and nighttime experiences) drew large numbers of visitors over their limited-time run. Due to the success of the first event, Nijigen no Mori has announced a second series of events – Nijigen no Mori × "Demon Slayer": "Night Walk: Swordsmith Village" (nighttime event) and Nijigen no Mori × "Demon Slayer": "Riddle Walk: The Missing Hashira in Hanafuru-zato" (daytime event).

In the nighttime event, scenes from the anime's Swordsmith Village Arc are brought vividly to life with projection mapping along a 1.2 kilometer stretch of forest. Participants take on the role of apprentice swordsmiths as they venture into the night forest, following Tanjiro Kamado and the hashiras' epic battle against demons as it unfolds before their eyes.

The daytime event leads participants around an area with character cutouts of the Demon Slayer cast featuring special illustrations from Ufotable, created exclusively for Nijigen no Mori. Along the way, participants take part in one of two riddle-solving games of different difficulty levels. They will join Tanjiro Kamado and his companions as they search Hanafuru-zato and untangle

the mystery of the missing hashira.

English instruction kits are available for both events, so visitors from overseas can also join the fun.

Besides Nijigen no Mori exclusive original goods, the park is also serving new original dishes inspired by characters including Tanjiro Kamado, Mitsuri Kanroji, Muichiro Tokito, and others.
