Rise in urbanization and increase in number of supermarket and hypermarkets have boosted the growth of the global food packaging equipment market. However, rise of counterfeit food packaging hampers the market growth. On the contrary, advancement in technology and rise in awareness regarding component and content of packaging box would open new opportunities for the market players in the future.

Key players in the market:

Arpac LLC
Bosch Packaging Technology
Coesia Group
GEA Group
IMA Group
Ishida
Multivac, Inc.
Nichrome India Ltd.
Omori Machinery Co. Ltd.
Oystar Holding GmbH.

The rise in food packaging equipment market demand for appealing and innovative packaging in the food industry for product differentiation; rise in consumption of processed meat, poultry, and seafood; surge in purchasing power, and preference for online grocery shopping all lead to increase in demand for packaged food, which is expected to drive the food packaging equipment market.

Demand for ready-to-eat, dairy and other perishable products, as well as convenience food items, is expected to drive the market growth. Increased health awareness and dietary changes are projected to boost development even further. Westernization of food preferences and lifestyle in Asia-Pacific and other developing regions is expected to augment demand for these food packaging equipment market.

By region, the market across Asia-Pacific, followed by Europe and North America, dominated in 2021, holding around two-fifths of the global food packaging equipment market. In addition, the region is projected to portray the highest CAGR of 7.2% during the forecast period, owing to product's widespread application in end-use sectors and rise in local manufacturing and consumer income.

By application, the shelf stable segment:

held the lion's share in 2021, contributing to nearly one-fourth of the global food packaging equipment market, as these foods demand extra packaging requirements. However, the meat, poultry & seafood segment is estimated to manifest the highest CAGR of 7.9% from 2022 to 2031, due to high consumption rate and wide availability of various products across the globe.

On the basis of distribution channels, market is bifurcated into offline and online. Physical routes

to market continue to be the most popular channel for purchasing food packaging equipment. Physical or offline purchases provide buyers a better chance to see and feel what the item genuinely looks like. Moreover, equipment trials are supplied by the makers to get better understanding of the food packaging equipment.
