

New BYK-Gardner byko-visc RT Self-Calibration Option

byko-visc RT Viscometer Upgradeable with Time and Cost Saving Self-Calibration Option

COLUMBIA, MARYLAND, UNITED STATES, January 16, 2024 /EINPresswire.com/ -- BYK-Gardner USA – worldwide partner of the automotive, paint and plastics industries for quality control of color, appearance and physical properties – announces their new byko-visc RT Self-calibration option.

Self-calibration ensures peak performance throughout the life of the instrument while saving time and money ”

Rick Trawick, Head of Operations, BYK-Gardner USA

The [byko-visc RT Rotational Viscometer](#) is now upgradeable with the new time and [cost-saving self-calibration option \(User Certification\)](#). Customers are now able to self-calibrate throughout the life of the instrument with a one-time purchase of this option. The self-calibration option can be added on to a new byko-visc RT purchase or be added on after sale. Customers can simply send their

instrument in for a one-time firmware upgrade and configuration to enable the function. This option saves time, money, and ensures that the instrument is always at peak performance without compromising accuracy.

byko-visc RT FIRMWARE USER CALIBRATION ADD-ON OPTION (Listed Under Individual Model Accessories)

- Purchased with instrument:
Password is provided for calibration screen.
- Purchased after sale:
Return instrument for one-time configuration.
