The 2024 program recognizes 74 companies and trailblazers paving the way for the future of innovation in North Texas. All finalists will be recognized in the January/February issue of D CEO magazine and online at

DallasInnovates.com; winners will be revealed at an exclusive awards event in January.

"We're thrilled to receive this recognition in one of the most prestigious and coveted cybersecurity categories from DCEO. Innovation has always been at the heart of our mission. This nomination is a testimony to the great work our team is doing to secure the future of tomorrow and pave the way to redefine cybersecurity by adding the dimension of "T - Trust"," said Lalit Ahluwalia – CEO of DigitalXForce.

About DigitalXForce

www.DigitalXForce.com - DigitalXForce is at the forefront of revolutionizing the cybersecurity landscape and instilling digital trust in the modern era.

DigitalXForce, known as "Digital Trust for the New Era," presents a unified SaaS digital trust platform that provides real-time, continuous integrated risk management. By leveraging data-driven insights, security blueprints, and regulatory control mapping, DigitalXForce optimizes and automates the digital risk posture of organizations. It was born out of a realization that existing Integrated Risk Management (IRM) and Governance Risk Compliance (GRC) platforms were falling short of genuinely securing digital businesses. In response, DigitalXForce emerges as the industry's first mission-driven digital trust platform, simplifying cybersecurity and privacy through automation, ensuring Digital Trust Inside Out.

The platform offers a comprehensive range of solutions, including attack surface management, risk quantification, automated audit, compliance, and much more. Its innovative approach empowers organizations to enhance their security posture while maximizing their investments in digital transformation.
