

Princeton Tree Care Celebrates 10 Years of Excellence in the Tree Care Industry

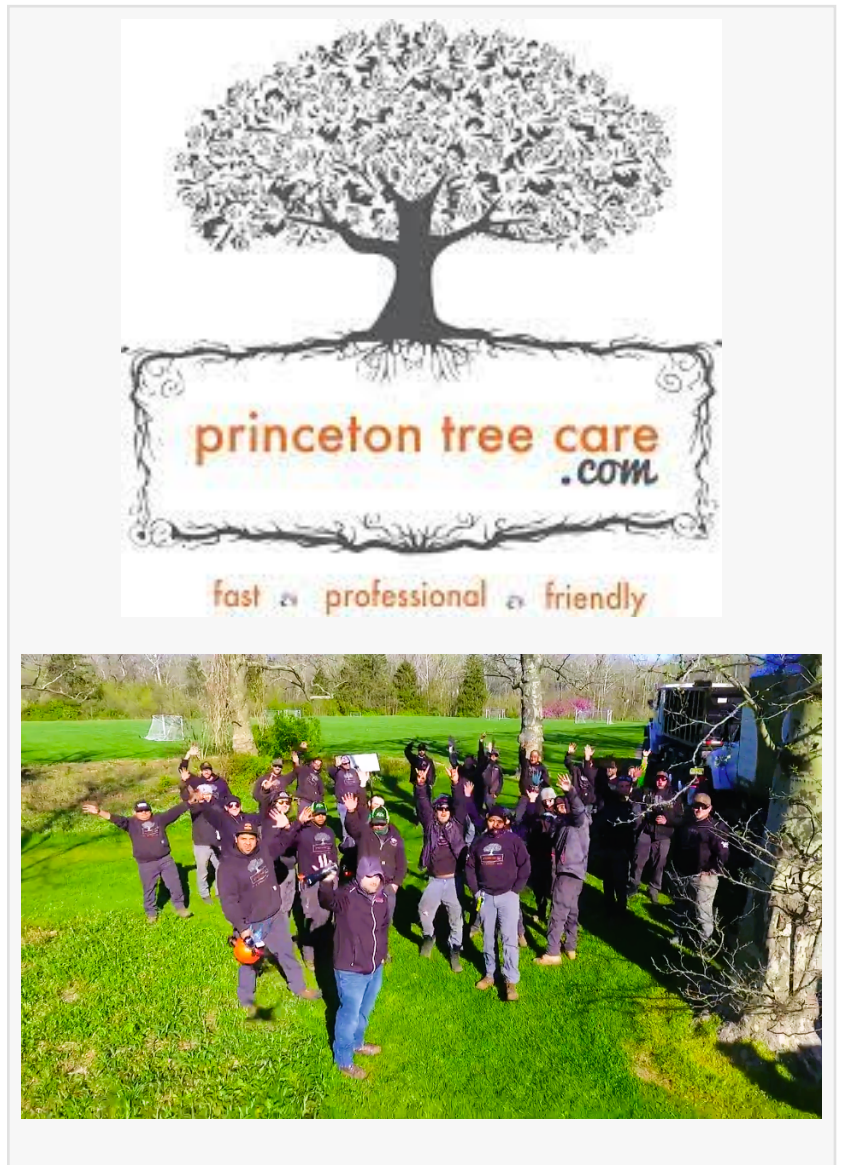

PRINCETON, NEW JERSEY, USA, October 16, 2023 /EINPresswire.com/ --

Princeton Tree Care, a leading full-service tree care company, based in Mercer County in Princeton, New Jersey, proudly marks a decade of excellence in the tree care industry.

The journey of Princeton Tree Care began in 2013 following Hurricane Sandy when a father and son, armed with their camping axes, took to the streets of their neighborhood in Princeton, NJ, to assist in clearing downed trees blocking driveways. This act of service quickly evolved into a passion, driving them to form what is now New Jersey's premier tree care and removal service company.

Since its inception, Princeton Tree Care has been committed to providing a wide range of professional tree care services, including tree trimming, tree pruning, technical tree removals, tree care planning, air spading, emerald ash borer (EAB) treatment, oak tree bacterial leaf scorch (BLS) protection, organic tree fertilization, cabling and bracing, emergency tree removal, and stump grinding.

The company is dedicated to protecting New Jersey's natural landscape and offers free consultations to help property owners understand how to safeguard their trees from harmful pests and diseases.

In a recent NJ 101.5 article (<https://nj1015.com/5-pests-that-are-threatening-nj-plants-and-trees/>), it was highlighted that various pests, such as Spotted Lantern Flies and Emerald Ash Borers, pose a significant threat to the region's plants and trees. Princeton Tree Care is at the forefront of addressing this challenge through its expertise and dedication.

To further enhance their market presence and continue their mission of promoting tree health and safety, Princeton Tree Care has partnered with Tree Leads Today (TLT). Through this collaboration, the company has gained access to high-quality leads, allowing them to expand their business and serve even more clients.

Owner Tim Bruchez expressed his satisfaction with the partnership, stating, "Tree Leads Today has provided us with quality leads that have allowed us to scale our business." The results speak for themselves, with the business experiencing a 50% growth since partnering with TLT.

Princeton Tree Care's success can be attributed to its dedicated team, all of whom share in company decisions and earned profits. Safety is a top priority, with multiple Certified Tree Safety Professionals (CTSPs) on staff, ensuring that every job is carried out with utmost care and caution. The company has invested in high-quality machinery and equipment to complete projects safely and efficiently, including a 108-foot tracked lift for tackling hazardous trees in tight spaces.

The company's commitment to client satisfaction is evident in its professional and friendly service, and its Quality Assurance Team promptly addresses any client concerns. Princeton Tree Care prides itself on providing white-glove service and helping clients make informed decisions about their trees' care.

"Our mission is genuine care of our life-giving trees. Professional service to our clients is our highest mission," stated Tim. The Princeton Tree Care experience not only enhances lives and communities but also fulfills the unexpressed wishes and needs of the planet.
