Dizu Introduces Its No-Code Application Agency Services Now Including AI

Dizu can now help clients create applications that can perform tasks such as natural language processing, machine learning, and computer vision.

CORDOBA, CORDOBA, ARGENTINA, October 17, 2023 /EINPresswire.com/ -- Dizu, a no-code application programming agency, today announced that it is now including AI technologies in its services. This means that Dizu can now help clients create applications that can perform tasks such as natural language processing, machine learning, and computer vision.

"We are excited to offer our clients the ability to add AI capabilities to their applications," said Juan Mende, CEO of

Dizu

Expense Control App for Contractors

Dizu. "AI is a powerful technology that can help businesses to improve their efficiency, productivity, and customer service. We believe that our no-code approach to AI will make it accessible to a wider range of businesses, regardless of their technical expertise."
