The research provides detailed segmentation of the global ethanol vehicle market based on type, fuel type, blend type, drive type, and region. The report discusses segments and their sub-segments in detail with the help of tables and figures. Market players and investors can strategize according to the highest revenue-generating and fastest-growing segments mentioned in the report.

Based on type, the cars segment held the highest share in 2021, accounting for more than two-thirds of the global ethanol vehicle market, and is expected to continue its leadership status during the forecast period. However, the other segment is expected to register the highest CAGR of 11.1% from 2022 to 2031.

Based on fuel type, the gasoline segment accounted for the highest share in 2021, contributing to more than 90% of the global ethanol vehicle market, and is expected to manifest the highest CAGR of 9.2% from 2022 to 2031.

Based on blend type, the E25 to E85 segment accounted for the highest share in 2021, holding more than two-thirds of the global ethanol vehicle market, and is expected to continue its leadership status during the forecast period. However, the E10 to E25 segment is estimated to grow at the highest CAGR of 10.5% during the forecast period.
