“

Asymmetrical games like Dead by Daylight are my favorites, and we distilled the genre and mixed it with a cool mysterious vibe, and online cross platform multiplayer to get Jewel Run!”

□Two teams with two gameplays

Jewel Run is an asymmetrical multiplayer game in the vein of Nintendo Land or Dead by Daylight. The thieves' goal is to get through the garden's maze, shake the trees to get their jewels, and carry this loot safely to their base.

However, carrying a lot will slow the player down. On the other team, the Crosbys may be outnumbered and slow, but they can tactically deploy their clumsy dogs to corner

the thieves, before taking them out with a precise tackle. The Crosbys need to tackle a few thieves to win.

Customization and map variety

Players can express their own playstyle with or against their friends: they can go straight into the action, dodging enemy attacks, or lure the dogs away from their team, or even take as many jewels at once as they can. They gradually unlock outfits to customize their character, as well as map features that change the gameplay: alarms that will reveal their location to the other team, trick walls that will block their pursuers, bushes to hide into, teleporters... Each session guarantees fresh challenges and intense action.□

#### A Unique Visual Appeal

Inspired by the renowned filmmaker Tim Burton, the visuals of Jewel Run combine a dark and twisted atmosphere with vibrant and colorful visuals. Players will experience a world unlike any other, filled with strange and intriguing characters and locations that are sure to leave a lasting impression.
