To commemorate the martyrs and victims of the ageless struggle for full democracy and equal rights in the world. To confront the re-emergence of autocracy and the reactionary forces that provoke, economic, religious, and racial, divisions. Forces that use, might makes right political violence, voter suppression, and disinformation to erase or distort the truth. And to artfully convey a variety of realities.

Truth and transparency promote trust. Everyone should have the right to be taught the truth in school. Liberty and justice should be for all without regard to social identity. But authoritarianism and political violence has been increasing globally. Invasions into, and attacks against democratic countries. Military coups d'état in Africa. Attempted coup d'état in Germany, and Brazil. Thousands of Ukrainian children have been abducted and taken to Russia during Russia's ongoing invasion into Ukraine. The United States President initiated a wide-ranging violent attempted coup d'état to overthrow American democracy; with people who are driven to subjugate Liberals, Black people, Jewish people, Aborigines, LGBT people, Muslims, and other minorities groups. They say that they're angry, but not at the people who continue to lie to them about the 2020 Election. The Republican Party turned against the Capitol Police, the D.C. Metro Police, election officials, the FBI, and democracy. They turned to voter suppression. They use their power to prop up a criminal enterprise. They echo the lies. They say that the former President really believes that he won the election. A person who believes that they won an election don't say, "Just say that the election was corrupt and leave the rest to me and the Republican Congressmen". Reality TV politics. They are superPAC puppets. They hurl insults to distract us. They lie that slavery was beneficial to the enslaved. They oppose women's reproductive rights. They dismiss global warming. They endorse political violence. They use the Second Amendment as a weapon. Too many unstable people have access to guns. Fascist ideology-motivated mass shooting murders and terrorism, daily. Democracy is in crisis! They are trying to divide us. They say it's all about economy. We say it's all about democracy. We must collaborate against the hate or the hate will envelop us one by one. Standing up for the rights of others is beneficial to all but the oppressors. Vote D for democracy.
