

Best Equipment Co. Becomes New Authorized Dealer for TYMCO® Regenerative Air Sweepers in Michigan

Best Equipment Co. Expands Product Line with TYMCO® Regenerative Air Sweepers - Leading the Way in Sustainable Street Cleaning Solutions for Michigan.

WESTLAND, MI, UNITED STATES, October 19, 2023 /EINPresswire.com/ -- [Best Equipment Co.](#), a leading provider of public works and environmental equipment, is thrilled to announce the addition of [TYMCO®](#) Regenerative Air Sweepers to their product lineup. As of October 2, 2023, Best Equipment Co. is the authorized dealer for TYMCO® Regenerative Air Sweepers in the state of Michigan providing new and used equipment sales, service, parts, training, and rental support.

“This strategic partnership between Best Equipment Co. and TYMCO® represents a significant expansion of our product offerings and reinforces our commitment to providing cutting edge solutions and unmatched customer support to our valued customers throughout Michigan.” said Mike Dahlmann, CEO of Best Equipment Co.

Experts in Municipal & Contractor environmental equipment solutions since 1917.

TYMCO® Regenerative Air Sweepers have been renowned for their innovative technology, superior performance, and environmental sustainability for over 50 years. They are designed to efficiently and effectively clean streets, parking lots, and various surfaces while minimizing dust

and maximizing debris pickup. With TYMCO® advanced Regenerative Air Technology, these sweepers are the ideal choice for municipalities, contractors, and businesses seeking dependable and eco-friendly cleaning solutions.

Key features of TYMCO® Regenerative Air Sweepers include:

- **Unmatched Cleaning Power:** TYMCO® sweepers are engineered to deliver powerful and consistent cleaning results, even in the toughest conditions.
- **Eco-Friendly Operation:** TYMCO® Regenerative Air Technology reduces dust emissions, making it an environmentally responsible choice for urban and suburban cleaning.
- **Low Maintenance:** These sweepers are designed for durability and ease of maintenance, to maximize uptime and deliver low daily operating costs.
- **Operator Comfort:** TYMCO® sweepers prioritize operator comfort and safety, providing an ergonomic and user-friendly design.

Best Equipment Co. is excited to represent TYMCO® Regenerative Air Sweepers in Michigan and provide customers with access to this exceptional product line. Their commitment to excellence extends beyond sales, with a focus on providing top-tier [service and parts support](#).

About TYMCO®:

TYMCO modernized street sweeping in the 1960s with the invention of the Regenerative Air System and Model 600, reinvented parking lot sweeping in the 1970s with the Model 210 and delivered high speed Foreign Object Debris (FOD) removal with the Model HSP airport runway sweeper in the 1980s. TYMCO also pioneered environmentally conscious dustless sweeping with its Model DST-6 and Model DST-4, and leads the clean alternative fuels market with Compressed Natural Gas (CNG) powered sweepers. Today, TYMCO continues its dedication to the Regenerative Air System by driving innovation with the highly maneuverable Model 435 and high dump Model 500x street sweepers as well as the single engine Model 210h parking lot sweeper. Across all sweeper models, TYMCO is driving innovation with their BlueLogic Control System which is defining the future of sweeper technologies.
