

CyberActa Announces Appointment of Senior Executive Advisor

CyberActa is pleased to announce the appointment of Robert Antonelli as Senior Executive Advisor to set up, scale, and lead global technology organizations.

BOSTON, MASSACHUSETTS, USA, October 19, 2023 /EINPresswire.com/ -- CyberActa, Inc., a leading provider of [data-driven digital, regulatory, cyber, and privacy](#) solutions, is pleased to announce the appointment of Robert (Bob) Antonelli, as Senior Executive Advisor. An industry veteran with over 25 years of global experience and former Vice President of Information Technology with Fresenius Medical Care, Bob's responsibilities will encompass assisting and advising the leadership team at CyberActa and [Veridat](#) on business and technical strategies as well as helping to create new opportunities to accelerate the growth of our clients.

CyberActa - Bob Antonelli - Senior Executive Advisor

“

I am thrilled to have Bob join our team. He comes with vast experience developing and deploying customer-centric digital solutions and will help us take it to the next level as we continue to grow.”

John Giantsidis, President & CEO, Veridat & CyberActa, Inc.

"Bob is a force to have on board, and we are very excited to have him join us," said John Giantsidis, President and CEO of CyberActa and Veridat. "With his decades of transformational leadership experience in global organizations, Bob will be key to taking our business and digital expertise to the next level and central to accelerating our reach and growth."

Bob brings extensive global experience in highly regulated, high-tech, and public service organizations to CyberActa and Veridat. He began his career with the Commonwealth of Massachusetts, during which time he held a wide range

of management roles of increasing responsibility, and subsequently joined BBN Corp. Most

recently, Bob held the position of Vice President of Information Technology with Fresenius Medical Care, he successfully led a range of complex SAP, PTC, PDX Pharmacy involving thousands of internal clients and billions of transactions per year.

Bob spearheaded the development and deployment of AI/ML solutions to automate compliant and efficient post-market surveillance and pharmacovigilance practices, especially the detection of safety signals by automating manual components of the existing process and augmenting drug-drug interactions, drug-disease interactions, medication errors, changes in frequency and severity of known events, patterns of use in medications, and misuse.

"I'm really excited to join CyberActa as an Executive Advisor," said Bob. "New digital technologies are increasingly challenging regulatory frameworks, cybersecurity, privacy capabilities, the AI/ML adoption, to name a few. I look forward to leveraging my experiences to continue advancing our digital capabilities, technological strategy, and ongoing focus on the client experience."

About CyberActa:
