

Hunto.ai - Announcing deployment of new Australia Instance

AUSTRALIA, October 19, 2023

/EINPresswire.com/ -- A prominent cybersecurity firm now offers local services and data storage.

Hunto Systems Pty Ltd has launched an instance of its application within an Australian data center.

Hunto is now extending its services to provide local support and data storage for both existing and prospective Australian clients.

Hunto's SaaS-based Digital Attack Surface Management (DASM) platform offers a complete life cycle protection from a broad range of external threats that are based on a three-phased approach of discovery, monitoring and enforcement.

Built on four key pillars, Hunto provides comprehensive visibility of external threats targeting your organization.

1. Digital Attack Surface Monitoring
2. [Brand Defense](#)
3. [DMARC](#) Compliance
4. Deep and Dark Web Monitoring

With data now hosted in [Australia](#), Hunto's customers have the advantage of having their data stored in compliance with the country's data sovereignty regulations.
