

VISSLA New Seas V-Zip Wetsuit

ALISO VIEJO, CA, UNITED STATES, October 25, 2023 /EINPresswire.com/ -- [Vissla](#), in a groundbreaking collaboration, proudly introduces the [NEW SEAS V-Zip wetsuit](#), marking a significant advancement in [wetsuit](#) design and technology.

Redefining wetsuit standards, the SEAS V-Zip offers superior sealing, ensuring an unparalleled zip entry that's remarkably easy to use. Its unique design enhances shoulder movement, promising an improved paddling experience.

Highlights of the NEW SEAS V-Zip Wetsuit:

Unparalleled Flexibility: With a design prioritizing minimal layers, fewer seams, and the use of the brand's Recycled Ridiculous rubber, the wetsuit promises an exceptional range of motion. The stitch-less outer arm seams and 100% Feather-Foam composition deliver lightweight warmth and unmatched flexibility.

V-Zip Entry Innovation: A stretch zipper plus entry system, designed to increase range of motion around the neck and shoulders. This innovation makes the SEAS V-Zip easier to put on and take off than any chest-zip on the market, while completely sealing the entry to prevent flushing.

Durability Meets Warmth: Thermal Fever Fiber lining, coupled with triple glued, blind-stitched body seams and Vissla's super stretch full interior tape, ensures users stay warm while enjoying unrestricted movement.

Commitment to Sustainability: All recycled nylon jerseys are laminated using AquaA water-based lamination, ensuring an eco-friendly product without compromising quality. The wetsuit's Feather Foam, partially recycled, has high thermal retention properties and is crafted from a blend of upcycled oyster shells, tires, and neoprene scraps.

Vissla New Seas Closeup

Available for both cool water ranges, the wetsuit comes in Graphite and Black:

3/2 variant (56-65°F/13-18°C) priced at \$419.95

4/3 variant (51-58°F/10-14°C) priced at \$439.95

5/4 variant (44-53°F/8-12°C) priced at \$479.95

Vissla's NEW SEAS V-Zip Wetsuit represents the future of wetsuit technology, combining flexibility, warmth, and sustainability.
