

Clear Skies and Secure Skies : Commercial Aircraft Video Surveillance Market Set to Reach \$257.02 Million by 2030

OREGAON, PORTLAND, UNITED STATES , October 20, 2023

/EINPresswire.com/ -- According to the report published by Allied Market Research, the global [commercial aircraft video surveillance systems market](#) generated \$170.82 million in 2020, and is projected to reach \$257.02 million by 2030, witnessing a CAGR of 4.3% from 2021 to 2030. The report provides a detailed analysis of changing market dynamics, top segments, value chain, key investment pockets, regional scenario, and competitive landscape.

The need for enhanced aircraft security, the introduction of advanced & innovative technologies, an upsurge in budgetary expenses for aerospace applications, and enhanced emphasis on passenger safety drive the [growth of the global commercial aircraft video surveillance systems market](#). However, reduced profit margins in aerospace business, deployment of technologically advanced products while maintaining profitability, and aircraft crew opposition to installation of cameras in cockpit restrain the market to some extent. On the other hand, surge in R&D initiatives and increase in focus to improve operational efficiency present new opportunities in the upcoming years.

The report offers detailed segmentation of the global commercial aircraft video surveillance systems market based on system type, aircraft type, application, and region.

□□□□ □□ □□□□□□ □□□□, the cockpit door surveillance system segment held the highest market share in 2020, holding nearly two-fifths of the total market share, and is expected to continue its leadership status during the forecast period. However, the environmental camera system segment is estimated to register the highest CAGR of 5.1% from 2021 to 2030.

□□□□ □□ □□□□□□□□□□, the passenger segment held the largest market share in 2020, holding more than four-fifths of the total market share, and is expected to continue its leadership status during the forecast period. However, the cargo segment is projected to register the highest CAGR of 5.4% from 2021 to 2030.

□□□□ □□ □□□□□□, Asia-Pacific contributed to the highest share in terms of revenue in 2020, holding nearly one-third of the total market share, and is estimated to continue its dominant share by 2030. Moreover, this region is projected to manifest the fastest CAGR of 5.3% during the forecast period. Other regions discussed in the report include North America, Europe, and LAMEA.

□The COVID-19 [impact on the commercial aircraft video surveillance systems market](#) is unpredictable and is expected to remain in force for a few years.

□The COVID-19 outbreak forced governments across the globe to implement stringent lockdown and ban import-export activities for most of 2020 & few months in 2021. This led to sudden fall in demand for air travel and thousands of planes were grounded across the globe.

□Moreover, nationwide lockdown forced commercial aircraft video surveillance systems manufacturing facilities to partially or completely shut their operations.

□Adverse impacts of the COVID-19 pandemic have resulted in delayed activities and initiatives

regarding development of commercial aircraft video surveillance systems components across the globe.
