

Seeing the Heat : Handheld Thermal Imager Market Size to Hit \$9.1 Billion Forecasted by 2031

OREGAON, PORTLAND, UNITED STATES , October 23, 2023

/EINPresswire.com/ -- According to the report published by Allied Market Research, the global [handheld thermal imager market](#) generated \$3.7 billion in 2021, and is projected to reach \$9.1 billion by 2031, growing at a CAGR of 9.9% from 2022 to 2031. The report offers a detailed analysis of the top winning strategies, evolving market trends, market size and estimations, value chain, key investment pockets, drivers & opportunities, competitive landscape, and regional landscape. The report is a useful source of information for new entrants, shareholders, frontrunners, and shareholders in introducing necessary strategies for the future and taking essential steps to significantly strengthen and heighten their position in the market.

□□□□□□□□ □□□□□□ □□□□□□ □□□□□□ - <https://www.alliedmarketresearch.com/request-sample/31865>

The report offers detailed segmentation of the global handheld thermal imager market based on end-use industry, product type, application, wavelength type, and region. The report provides a comprehensive analysis of every segment and their respective sub-segment with the help of graphical and tabular representation. This analysis can essentially help market players, investors, and new entrants in determining and devising strategies based on fastest growing segments and highest revenue generation that is mentioned in the report.

Based on end-use industry, [the defense segment held the largest market share](#) in 2021, holding more than one-third of the global market share, and is expected to maintain its leadership status during the forecast period. In addition, the same segment is expected to cite the fastest CAGR of 10.7% during the forecast period. The report also analyses other segments such as Public Safety, Industrial, and others.

Based on product type, the uncooled thermal imager segment held the largest market share in 2021, holding nearly three-fourths of the global market share, and is expected to maintain its leadership status during the forecast period. In addition, the same segment is expected to cite the fastest CAGR of 10.3% during the forecast period. The report also analyses other segments such as the cooled thermal imager segment.

Handheld Thermal Imager Market Purchase Options - <https://www.alliedmarketresearch.com/handheld-thermal-imager-market/purchase-options>

Based on application, the security and surveillance segment held the largest market share in 2021, holding nearly half of the global market, and is expected to maintain its leadership status during the forecast period. The detection and measurement segment, on the other hand, is expected to cite the fastest CAGR of 10.8% during the forecast period.

Based on region, the market across Asia-Pacific region held the dominating market share in 2021, [holding more than one-third of the global handheld thermal imager market](#), and is expected to maintain its leadership status during the forecast period. In addition, the same segment is expected to cite the fastest CAGR of 10.6% during the forecast period. The report also analyses other regions such as North America, Europe, and LAMEA.

Key Companies:-

American Technologies Network Corporation,
Axis Communications AB,
BAE Systems Plc.,
Elbit Systems Ltd.,
Fluke Corporation,
L3Harris Technologies, Inc.,
Leonardo S.p.A.,
Opgal Optronics Industries Ltd.,
Raytheon Technologies Corporation,
Safran S.A.,
Seek Thermal Inc.,
Teledyne FLIR LLC,
Testo SE & Co. KGaA,
Thales Group,
Thermoteknix Systems Ltd..

Handheld Thermal Imager Market Purchase Enquiry - <https://www.alliedmarketresearch.com/purchase-enquiry/31865>

By end use industry, the defense segment is expected to register a significant growth during the

forecast period.

By product type, the uncooled thermal imager segment is anticipated to exhibit significant growth in future.

By application, the detection & measurement segment is anticipated to exhibit significant growth in future.

By wavelength type, the SWIR segment is anticipated to exhibit significant growth in future.

Region wise, Asia-Pacific is anticipated to register the highest CAGR during the forecast period.
