

Propositions Offers Free Webinar on How AI, VR, and Nanolearning are Revolutionizing Talent Development

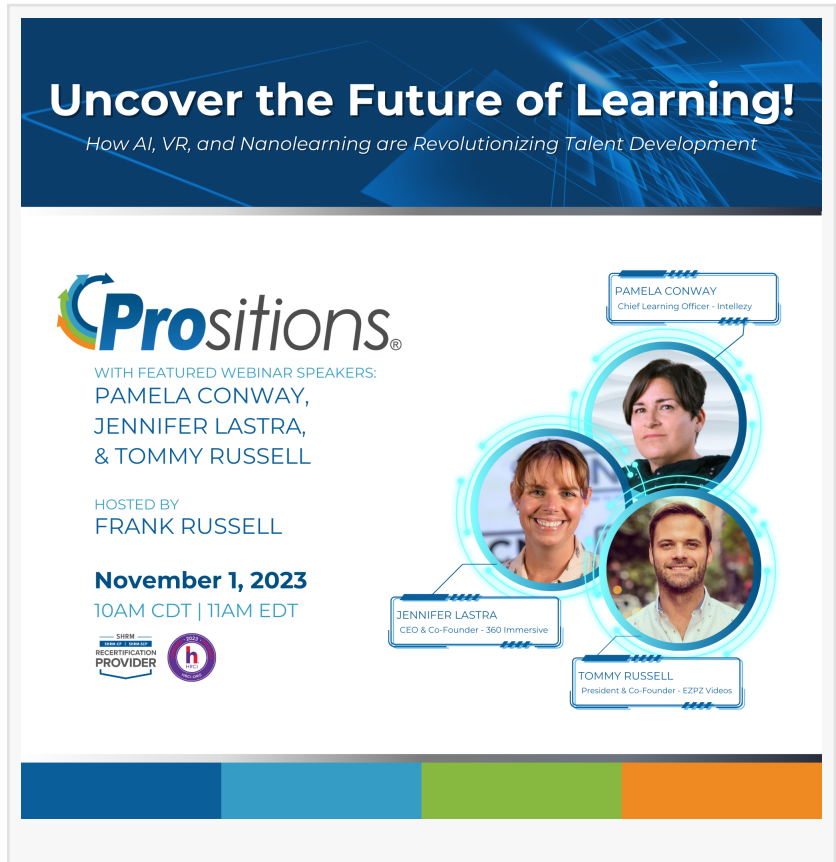

Propositions is partnering with several subject matter experts for a webinar on how to utilize AI, VR, and Nanolearning to improve talent development programs.

DES MOINES, IOWA, UNITED STATES, October 24, 2023 /EINPresswire.com/ -- On November 1st from 10:00am – 11:00am CDT, Propositions, Inc. is offering a complimentary webinar with a panel discussion on how the latest cutting-edge technologies, Artificial Intelligence (AI), Virtual Reality (VR), and Nanolearning, are revolutionizing talent development and training programs in the workplace. The panel will feature several subject matter experts, including Pamela Conway (Chief Learning Officer of Intellezy), Jennifer Lastra (CEO and Co-Founder of 360 Immersive), and Tommy Russell (President and Co-Founder of EZPZ Videos).

In this complimentary webinar, the panel of experts will use real-world case studies and examples to explore how AI-driven tools and techniques are reshaping learning and development programs, how immersive VR technology is transforming training programs, and how Nanolearning is being deployed today into the stream of work. Attendees will have the opportunity to learn from their extensive knowledge and practical experience in AI, VR, and Nanolearning.

Participants will learn how to:

- Assess the overall impact of AI on the field of learning and development
- Identify the potential benefits and challenges of integrating AI into learning and development

Uncover the Future of Learning!
How AI, VR, and Nanolearning are Revolutionizing Talent Development

programs

- Outline 2-3 ways AI can assist right now in the creation and curation of learning materials
- Identify and explore key concerns in using AI
- Demonstrate what gamification is and the power of gamification paired with VR
- Identify what are the adoption challenges to VR training
- Illustrate how VR is disrupting safety training
- Explain what nanolearning is and how it's changing the way learners access content
- Outline 10 ways nanolearning is being used by organizations today
- Identify specific techniques and tools for creating nanolearning on a tight budget
- Evaluate the various options for combining off-the-shelf with custom content to create a rich learning environment

"We are excited to be partnering with experts from Intellezy, 360 Immersive, and EZPZ Videos to share their insights on how AI, VR, and Nanolearning can transform the way we learn and develop skills in the workplace," said Frank Russell, CEO of Propositions. "This webinar will provide valuable information for companies looking to take advantage of these technologies to enhance their talent development and training programs."

About Pamela Conway:

Pamela Conway is the Chief Learning Officer of Intellezy and a double Boilermaker, having received a BA in English and History and a Masters in Corporate Education and Communication from Purdue University. Throughout a 30+ year career in Learning and Development, Pamela has worked as an instructional designer, technical writer, eLearning developer, trainer, senior strategist, and executive. She is the key architect behind Intellezy's video training and quick reference card products and a sponsor of Intellezy's learning innovation initiatives in augment and virtual reality. In her free time, Pam enjoys creative writing, reading, and traveling.

About Jennifer Lastra:

Jennifer Lastra is a U.S. Navy Veteran and the CEO and Co-Founder of 360 Immersive, an organization that brings the world's most empowering educational content to life and creates safe virtual spaces to explore the physical and psychological hazards of work, recreation, and personal growth.

When not working to develop a championship team, Jennifer can be found serving on the advisory boards of the University of Idaho College of Art and Architecture, the National Safety Council Work to Zero Program, and as a contributing partner of the Campbell Institute. Jennifer also enjoys volunteering her time, reading, and adventuring outdoors with her husband and daughter. She marvels at her ability to grow things like plants (most days) as well as a socially responsible business.

About Tommy Russell:

Tommy Russell is the President and Co-Founder of EZPZ Videos, a cutting-edge nanolearning company that is revolutionizing accessible learning with bite-sized, mobile-friendly content. Produced with a mobile-first design in smaller learning bites, EZPZ Videos can be accessed through Slack, MS Teams, Google Chat, traditional LMS systems, or sent via IMs and emails.

As an experienced director and actor, Tommy loves collaborating with creative minds, from authors to influencers, to make learning entertaining. He graduated with Honors in Theatre Arts from the University of Iowa and has an MFA from Yale School of Drama. He also helped create multiple HR software platforms and apps in the career coaching, mentoring, and training content spaces.

About Propositions:

Propositions, Inc. is a leading provider of learning content and performance support libraries, offering a wide range of consulting, software, and training delivery solutions. Their award-winning learning platform, DashTrain, contains over 7,000 microlearning and nanolearning modules, giving users instant access to top business libraries and best-selling authors anywhere and anytime. For information, visit www.propositions.com.
