Disrupt-X and Tadoom Forge Partnership to Elevate Oman's IoT Ecosystem

DUBAI, UNITED ARAB EMIRATES, October 24, 2023 /EINPresswire.com/ -- Disrupt-X, a leading developer and provider of Internet of Things (IoT) solutions platform, and Tadoom, Oman's leading semi-governmental authority on smart city applications, have unveiled a strategic collaboration. Together, they aim to expand the reach and adoption of Internet of Things (IoT) technologies throughout Oman, setting the stage for a seamlessly connected future.

This partnership emphasizes both Disrupt-X's advanced ALEF IoT platform and Tadoom's dedication to sustainable communities. Together, they're gearing up to pioneer a digital transformation beneficial to businesses and residents.

Asim Sajwani, CEO of Disrupt-X (left) and Abdullah AlBadi, CEO of Tadoom announce signing a Memorandum of Understanding in GITEX on 18 October, 2023

Tadoom will use Disrupt-X's strong expertise and advanced technology to strengthen its services and drive rapid innovation. The goal is to craft tailored IoT solutions that adapt and expand based on client needs. This collaboration will enable Tadoom to offer a comprehensive range of services, spanning from device connectivity to in-depth data analysis, enhancing its capability to assist customers in navigating our rapidly evolving digital landscape.

Commenting on the partnership, Asim Sajwani, Founder and CEO of Disrupt-X, said, "Our collaboration with Tadoom represents an essential step in our shared vision to elevate urban environments. Together, we're dedicated to placing Oman at the forefront of IoT-driven innovation."

Abdullah Al Badi, CEO of Tadoom, commented, "This collaboration between Tadoom and Disrupt-X is a major step toward a tech-driven transformation in Oman. With our combined

expertise, we'll drive the adoption of IoT technologies, offering solutions to our clients and advancing our commitment to sustainable communities." This partnership holds great promise for a more connected future in Oman."

Oman is on the verge of a tech evolution, the partnership between Disrupt-X and Tadoom emerges as a catalyst for this transformative journey. Their combined strengths, from Disrupt-X's diverse use-cases to Tadoom's regional insights, are set to shape a new era of tech integration within Oman. As they craft this digital blueprint, they're not only elevating the nation's technological stature but also positioning it as a potential standard-bearer for the entire Gulf region.

More on Disrupt-X
Located in the heart of Dubai, Disrupt-X has established itself as a pioneering force in the realm of Internet of Things (IoT). They specialize in engineering versatile IoT solutions that are adept at catering to a diverse array of industry verticals. At the forefront of their technological innovation is ALEF IoT Platform which include Mobile Applications, designed to revolutionize operations by automating processes and optimizing efficiency. Building on their established portfolio, Disrupt-X has incorporated a LoRaWAN® Network Server to their offerings, further enhancing their commitment to delivering comprehensive IoT solutions.
By providing over 50 ready use-cases, Disrupt-X showcases its versatility in meeting diverse business needs. The company is constantly innovating and expanding, planning to extend its portfolio to up to 80 ready use-cases by the end of 2023. Furthermore, they proudly host the Cracking IoT Conference, a global gathering that brings together industry experts for insightful discussions, fostering a deeper understanding of IoT's transformative potential.
