

## Revolutionizing Supply Chains with Artificial Intelligence: Unveiling Market Dynamics

The Business Research Company's Artificial Intelligence In Supply Chain Global Market Report 2023 – Market Size, Trends, And Global Forecast 2023-2032

LONDON, GREATER LONDON, UK, October 25, 2023 /EINPresswire.com/ --Navigating Disruptions: Unveiling Market Growth Amid Global Challenges

Despite the disruptive impact of the

Russia-Ukraine conflict, leading to global economic setbacks and supply chain disturbances, the artificial intelligence in the supply chain market continues to flourish. The sector is set to witness robust growth, powered by its projected CAGR of 47.9% from 2022 to 2023, underscoring the pivotal role of AI in fortifying global supply chains against adversities.

Innovative Solutions for Supply Chain Excellence

Market leaders in the artificial intelligence in the supply chain market including Amazon.com Inc. and Microsoft Corporation, are pioneering groundbreaking AI applications to streamline supply chain management. These advancements enable businesses to leverage machine learning, natural language processing, context-aware computing, and computer vision technologies, transforming supply chain planning, warehouse management, and risk mitigation, among other crucial functions.

## **Market Segments**

The global artificial intelligence in supply chain market is segmented -

- 1) By Offering: Hardware, Software, Services
- 2) By Technology: Machine Learning, Natural Language Processing, Context-Aware Computing, Computer Vision
- 3) By Application: Fleet Management, Supply Chain Planning, Warehouse Management, Virtual Assistant, Risk Management, Freight Brokerage, Other Applications
- 4) By End-User: Automotive, Aerospace, Manufacturing, Retail, Healthcare, Consumer-Packaged Goods, Food And Beverages

Leverage the full report to stay informed about the latest market trends and make informed decisions to optimize supply chain management with the power of Al-driven solutions: <a href="https://www.thebusinessresearchcompany.com/report/artificial-intelligence-in-supply-chain-global-market-report">https://www.thebusinessresearchcompany.com/report/artificial-intelligence-in-supply-chain-global-market-report</a>

<u>Artificial Intelligence In Supply Chain Global Market Report 2023</u> from TBRC covers the following information:

- Market size date for the forecast period: Historical and Future
- Market analysis by region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
- Market analysis by countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

Trends, opportunities, strategies and so much more.

The Artificial Intelligence In Supply Chain Global Market Report 2023 by The Business Research Company is the most comprehensive report that provides insights on artificial intelligence in supply chain market size, artificial intelligence in supply chain market drivers and trends, artificial intelligence in supply chain market major players, artificial intelligence in the supply chain market competitors' revenues, artificial intelligence in the supply chain market positioning, and artificial intelligence in the supply chain market growth across geographies. The artificial intelligence in supply chain market report helps you gain in-depth insights on opportunities and strategies. Companies can leverage the data in the artificial intelligence in supply chain market report and tap into segments with the highest growth potential.
