

PIXO VR Awarded Patent for PIXO Platform

PIXO VR has been granted a patent by the United States Patent and Trademark Office for the PIXO platform.

BERKLEY, MICHIGAN, U.S., October 24, 2023 /EINPresswire.com/ -- [PIXO VR](https://www.einpresswire.com/article/663807544) has been granted a patent by the United States Patent and Trademark Office for [the PIXO platform](https://www.einpresswire.com/article/663807544).

PIXO's new patent – U.S. patent 7,166,998 – includes design and development of Extended Reality (XR) workplace training Software as a Service (SaaS) and Platform as a Service (PaaS), and the deployment, management and analytics of XR training software.

“

This patent secures PIXO's place as the industry leader for XR training.”

Sean Hurwitz

“This patent secures PIXO's place as the industry leader for XR training,” says Sean Hurwitz, CEO and Founder of PIXO. “Our platform has been a differentiator since its launch in

2020. We are continually adding new features to make XR training easier for enterprises, and this is an exciting step in our product roadmap.”

The PIXO platform enables enterprises to easily manage XR programs globally. PIXO offers a vast off-the-shelf VR training library, and the ability to create custom content for an organization's specific needs. With the PIXO platform, you easily select, deploy, manage and track XR content and users. The platform can be integrated into an existing learning management system for a seamless backend experience.
